SCHOOL UNIFORM PROGRAM GUIDELINES

The purpose of these guidelines is to answer many of the questions that arise concerning a school's uniform program. The guidelines are written in a question and answer format to provide a more "user friendly" presentation of the issues. The School Uniform Program is addressed in School Board Policy 5511 –Dress Code and School Uniforms (Attachment 1).

Dress Code:

Students should have the right to express their gender at school, within the parameters of the school's dress code, without discrimination or harassment. The school's dress code should be gender-neutral and not restrict a student's clothing choices on the basis of gender. In the event that the dress code has differing expectations or practices based on gender, students should be permitted to dress in accordance with their gender identity.

Privacy and Confidentiality Regarding Disclosures:

Transgender and Gender Non-Conforming students have the right to decide when, with whom, and to what extent to share private information. When contacting the parent/guardian of a transgender or Gender Non-Conforming student, school staff should use the student's legal name and the pronoun corresponding to the student's assigned sex at birth, unless the student or parent/guardian has specified otherwise.

What are the revisions to the School Uniform Program Guidelines?

School Board Policy 5511, Dress Code and School Uniforms, **requires all students in grades K-8 (elementary school, K-8 Centers, and middle schools) to participate in a mandatory school uniform program.** Policy and process provisions allowing schools to select the school uniform will not be changed and no-uniform days may be authorized by the principal for specific purposes such as fundraising, rewards, spirit days, and club days.

How does a senior high school become a mandatory uniform school?

Students in grades 9-12 may participate in a mandatory uniform policy as delineated in School Board Policy 5511, Dress Code and School Uniforms. In February of each school year, a **senior high** school's Educational Excellence School Advisory Council (EESAC) may determine that a vote should be taken in the spring of that year to determine if that school should become a uniform school. If the EESAC determines that a vote should be taken in the spring, **the minutes of that EESAC meeting and a memorandum requesting a vote** must be sent to the Region Superintendent and to the Deputy Superintendent/Chief Operating Officer of School Operations.

When does the voting on school uniforms in senior high schools occur?

The voting on school uniforms in **senior high schools** will occur on a specific advertised date. This voting usually occurs during the month of April. The results of the vote will become effective the following school year. Senior high schools must advertise that such a vote will occur. Parent meetings can be held and the voting may be advertised via school marquee, letters, signs, Connect-ED messages, bulletin boards, newspapers, school websites, etc.

How does the voting determine if a senior high school will become a mandatory uniform school?

At least 50 percent plus one (1) of the parents in that senior high school, who vote, must vote in favor of establishing a mandatory program. This vote will stand for a minimum of three (3) school years, at which time the EESAC may determine if a subsequent vote is warranted.

Who is able to vote on the issue of a senior high school becoming a mandatory uniform school?

Since the vote is conducted in the spring, for implementation in the following school year, the parents of students in the exiting grade do not receive ballots. Each of the remaining families will receive one ballot (see Attachment 2) with spaces to list each of their children who are enrolled in that senior high school. A family's vote is counted once for **each** child. In other words, if a family has three children who will be attending that senior high school in the following year, their vote would be counted three times.

Once the voting is completed, what steps should a senior high school take?

The votes should be tallied by a school site administrator and a non school-site committee member. Students, parents, and staff should be informed of the results. Use multiple means of disseminating the results: school marquee, letters, signs, Connect-ED messages, bulletin boards, newspapers, school websites, etc. The Uniform Vote Result Sheet (see Attachment 3) must be sent to the Division of Athletics, Activities and Accreditation via fax to the number listed at the bottom of the form by the specified date.

How does a school select a school uniform?

Every school participating in the mandatory uniform program **shall** establish a uniform committee that adequately represents administrators, teachers, students and parents. A school may utilize the EESAC for this purpose or they may choose a separate committee. The committee should use input from all parties in establishing the uniform requirements.

What type of uniform should be selected?

The school uniform selected should not be characterized as gender specific and should comply with all requirements set forth in School Board Policy 5511 – Dress Code and School Uniforms. Uniforms should be simple, inexpensive, and in colors that are carried by a range of uniform companies, retail stores, catalogs, etc.

A school may select a uniform that involves just a color scheme (e.g., white, shirts, navy bottoms) or a more formal traditional uniform. All schools should include a **“generic uniform” option**, one that is easily obtainable from a variety of sources (e.g., plain color shirt, dark or khaki-colored pants).

The school uniform selected shall prohibit types of styles of clothing as specified in the Code of Student Conduct, Policy 5500.

The uniform chosen shall consist of (1) solid colored clothing and fabrics for pants, skirts, shorts or similar clothing, and (2) short or long-sleeved shirts with collars. The uniform also may include **a logo but may NOT allow mottos or slogans.**

Can a school mandate that a required uniform have a school patch or logo?

Yes. The uniform committee may determine whether the school logo patch is required. The school must provide a patch, **at no cost**, for students unable to fund one.

How does a school inform parents of vendors selling the school uniform?

The uniform committee or EESAC cannot select a uniform company as an “official uniform company” for a school. **Parents must be advised** that the selected uniform can be purchased from a variety of sources, such as other uniform companies, department and discount stores, on-line retailers, catalogs, etc. (see Attachment 4 for a sample letter to parents).

In addition, endorsements of a uniform company via the school media should not occur as stipulated in School Board Policy 9700.01 – Advertising and Commercial Activities, which states the following:

The Board’s name, students, staff members and District facilities shall not be used for any commercial advertising or otherwise promoting the interests of any commercial, political, non-profit or other non-school agency or organization, public or private, without the approval of the Board or its designee.

Vendors are permitted to purchase advertisements in school publications and on school sites pursuant to School Board policies.

What provisions can a school make for vendors to sell uniforms?

A school has several options:

- At the discretion of the principal, uniforms may be purchased at the vendor’s location. The school may provide the pamphlets of **all vendors** requesting to do so in the main office in a specified area.
- At the discretion of the principal, uniforms may be sold as a fundraiser. **Only a school’s PTSA, Booster Club, or other school allied organization** may purchase the uniforms from a **vendor of their choosing** and use the sale of school uniforms as a fundraiser. These organizations must file Form No. 6570 (see Attachment 5) at the school site. The PTSA, Booster Club, or other school allied organization may sell uniforms on site at the discretion of the principal during **non-instructional** time. The vendor is not to assist in the sale. No employee of the school where this school-allied organization is chartered can handle money or merchandise for the sale. Students actively participating in such a fundraising activity for school allied organizations must have adequate adult supervision. The School Board’s sales tax exemption number **cannot** be used by school-allied organizations. (Please see Attachment 6, Section IV, Chapter 12 of the *Manual of Internal Fund Accounting* for further details.)

Can a school accept certificates/vouchers from vendors/suppliers for uniforms for needy families?

Yes, such certificates or vouchers may be accepted.

Does a school need to make provisions for students who by reason of financial hardship cannot comply with the uniform policy?

Yes, the school may do this through vendor's donated vouchers or certificates or through the donation of uniforms by exiting students.

Can students wear the uniform of a nationally recognized youth organization such as the Boy Scouts, Girl Scouts or JROTC?

Yes, students may wear the uniform of a nationally recognized youth organization on regular meeting days.

Can a student wear a button, armband, or other accouterment?

A student may wear a button, armband, or other accouterment to exercise the right to freedom of speech as guaranteed by the First Amendment and Board Policy 5511 – Dress Code and School Uniforms, unless the button, armband, or other accouterment signifies or is related to gangs, gang membership, or gang activity.

What if wearing a school uniform is against a student's religious belief?

An exemption to wearing a school uniform may be granted if the wearing of a school uniform violates a student's sincerely held religious belief. Please see the uniform exemption process which is delineated below.

Can a parent secure an exemption for their child from wearing a school uniform?

A parent or guardian may secure an exemption from the mandatory school uniform policy. Encourage applications for exemptions to take place during the first 30 days of school.

What if a student has a disability?

A student's parent may request a reasonable accommodation to address a student's disability or a documented medical condition.

What is the procedure for securing an exemption for a student from wearing the school uniform?

- The school should provide the parent with the form entitled *Application for Exemption from the Student Uniform Program*, Form No. 5393 (see Attachment 7).
- The parent completes the form and requests a meeting with the principal or the principal's designee.
- The principal or the principal's designee meets with the parent to ascertain the nature of the reason for the request for the exemption. The principal or his designee is considered the designated district administrator as stated in the School Board Policy.

- The purposes of the meeting should include: verifying the accuracy of the information on the application, and preventing fraud or misrepresentation.
- If the principal or designee is unable to satisfy the parent of the valid reasons for wearing the uniform, an exemption should be granted by the completion of the form entitled *Confirmation of Uniform Exemption*, Form No. 5394 (see Attachment 8). The completed form should be given to the parent.
- A copy of the *Confirmation of Uniform Exemption* should be kept at the school site.
- Another copy of the *Confirmation of Uniform Exemption* should be sent to the Region Superintendent.
- The school should provide the student in question with some form of identification which will indicate to teachers that the student is exempt from the requirement of wearing the school uniform.

How long does the exemption from wearing the school uniform stay in effect?

The exemption is for the current school year only. A parent must re-apply each year.

If a student is exempted from the mandatory uniform requirement are there any restrictions on what he or she may wear?

The student must comply with the Board Approved Minimal District wide Dress Code as stated in Board Policy 5511 – Dress Code and School Uniforms (see Attachment 1).

How may a school's uniform policy be enforced?

Each school shall develop incentives and positive reinforcement measures to encourage full compliance with the uniform policy. The school should resort to disciplinary action only when positive measures fail to ensure compliance. If a student is non-compliant, the school should communicate with his or her parents so that expectations, rationale and benefits are fully understood by the student and his or her family. Disciplinary action is initiated only after all other means of securing support and cooperation have not succeeded.

Can a student receive a detention for not complying with the school uniform policy?

Yes, a student may be issued a detention if all other means of securing support and cooperation have not succeeded.

Can a student be suspended for not complying with the school uniform policy?

No student shall NOT be suspended (indoor/outdoor/Student Success Center) for non-compliance with the uniform policy. The intent of the policy is not to inhibit or prohibit any student who is not in uniform from receiving the education to which he or she is entitled.

Can a student be removed from class until his or her parent brings the required uniform to the school?

No, the student cannot be removed from class. His or her parent may be called to bring the required uniform to the school and then the student may be called to the office to change clothes.

Can a school require students to comply with the school uniform policy on the first day of school?

Students should be encouraged to be in compliance with the school uniform policy on the first day of school. However, parents and guardians should be given a grace period of thirty (30) days to allow adequate time to obtain uniforms and to encourage reluctant families to become part of the school uniform program.

Are there any other requirements for student dress of which a school should be aware?

- A student with hair of such a length or style that it creates classroom or school disorder or distracts the attention of another student or students in any class session from the lesson being presented or from any other assigned classroom activity, or which creates a safety or health hazard for any student in the classroom, will be required to change the length or style of hair. Failure on the part of the student to comply with such a requirement shall result in disciplinary.
- A student who wears **items of clothing which, because of fit, design, color, texture, inadequate coverage**, or some other factor, creates classroom or school disorder or distracts the attention of another student or students in any class session from the lesson being presented or from any other assigned classroom activity, or which creates a safety or health hazard for any student in the classroom, will be required to change the clothing to eliminate the disorder, distraction or hazard. Failure on the part of the student to comply with such a requirement shall result in disciplinary.
- A student who fails to maintain **personal cleanliness, grooming, or neatness of dress** to the extent that his or her presence in the classroom creates classroom or school disorder or distracts the attention of others from assigned classroom activity, will be required to maintain a level of personal cleanliness, grooming, or neatness of dress that eliminates the disorder or distraction of other students in the classroom. Failure on the part of the student to comply with such a requirement shall result in disciplinary measures.
- **Articles of clothing that cause excessive maintenance problems of school property** – for example, shoe cleats that scratch floors or tear rugs, trousers with metal rivets that scratch furniture—will be ruled unacceptable. Students who fail to change articles of clothing of this type after being instructed to do so by school employees are subject to disciplinary measures.

Remember: *The primary consideration is correction of a problem by the quickest and most reasonable method so that the instructional program for students may proceed with the least possible distraction. A student should only be disciplined for the situations listed above only after being given the opportunity to correct the cause of the act for which he or she is accused, and after a conference on the matter with professional school personnel and the parents has been held.*

How often can a non-uniform senior high school conduct a vote on school uniforms?

A **senior high school** that is a non-uniform school may conduct a vote in the spring of every year if the EESAC determines that a vote should be taken, provided that the notification of the intent to vote is submitted by February of the year in which the voting is to occur to the Region Superintendent and the Deputy Superintendent/Chief Operating Officer of School Operations. This notification should consist of a memorandum with a copy of the corresponding EESAC minutes attached. Voting will then occur on a specific, advertised date with the results to become effective the following school year.

What if a school wishes to change the uniform of the school?

In **February** of the school year, the school uniform committee or EESAC may meet to determine what changes might be made to the uniform for the following year. If it is determined that changes should be made, the school should use multiple means of disseminating the information: school marquee, letters, signs, Connect-ED messages, bulletin boards, newspapers, school websites, etc. Any changes to the school uniform must be made by committee, not by the principal acting alone. Vendors serving the school should be notified about the changes. Interested vendors of uniforms should be contacted about the changes.

What if a senior high school wishes to no longer remain a uniform school?

A uniform policy must remain in place for a minimum of three years once initiated. At the end of the three years, the EESAC may determine that a vote should be taken during the spring of any given year following the three-year minimum, provided that notification of the intent to vote is submitted by February of the year in which the voting is to occur to the Region Superintendent and the Deputy Superintendent/Chief Operating Officer, School Operations. This notification should consist of a memorandum with a copy of the corresponding EESAC minutes attached. Voting will then occur on a specific, advertised date with the results to become effective the following school year.

Is it required that parents purchase school uniforms from a specific vendor?

As delineated in SCHOOL BOARD POLICY 5511 – DRESS CODE AND SCHOOL UNIFORMS (attached), it is required that parents **must be advised** that the selected uniform or a generic option can be purchased from a variety of sources, such as other uniform companies, department stores, catalogs, etc.; and **NOT limited to only one (1) vendor.**

Every effort must be made to ensure that both the students, parents and school communities/neighborhoods at-large, are notified that **the selected uniform or a generic option can be purchased from a variety of sources, such as other uniform companies, department stores, catalogs, etc.; and NOT limited to only one (1) vendor.** Connect-ED messages, newsletters, school websites, school publications, Twitter, social media and any other method of communication your school uses to provide information to parents and your respective school communities, should be used to convey this information.

Where can I call if I have additional questions?

If you have additional questions, please call the Division of Athletics, and Activities at 305-275-3714.

5511 - DRESS CODE AND SCHOOL UNIFORMS

Students shall come to school clean and appropriately groomed and dressed. Students whose personal attire or grooming distracts the attention of other students or teachers from their school work shall be required to make necessary alterations before entering the classroom or be sent home by the Principal. Students who fail to meet the minimum acceptable standards of cleanliness and neatness as determined by the principal and as specified in this policy shall be subject to appropriate disciplinary measures in accordance with Policy [5500](#), and the *Code of Student Conduct*.

Dress Code

- A. This District dress code is intended to regulate the clothing students may wear to school based on the health, safety, and cleanliness of students, to minimize the distraction of students from classroom activities, to prevent disruption of a school program, and to reduce excessive maintenance of school property.
- B. The determination of what constitutes a safety or health hazard, or what constitutes a distraction of students from a classroom activity, or what constitutes a disruption of a school program or excessive maintenance of school property shall be made by the teacher, other District employee concerned, and the Principal.
- C. Disciplinary action may be taken to encourage compliance with the policy. Since the intent of the policy is not to inhibit or prohibit any student who is not in compliance with the dress code from receiving the education to which they are entitled, no student shall be suspended from class or from school, expelled from school, or receive a lowered academic grade as a result of noncompliance.
- D. Except for schools participating in a mandatory or voluntary school uniform program (see below), senior high schools desiring to establish regulations that go beyond or deviate from this District dress code must have them approved by the Region Superintendent and adopted by the Board. Individual school dress regulations must be submitted to the Superintendent prior to the opening of the school year for which the dress code is effective.
- E. Once a dress code has been approved by the Board, it need only be re-submitted if additional changes are made.

Mandatory Uniforms

To promote a safe and supportive learning environment and improve school safety and discipline, all students in K-8 schools shall participate in a mandatory uniform program. Students in grades 9-12 may participate in a mandatory uniform program as follows:

- A. For students in grades 9-12 only, the Educational Excellence School Advisory Council (EESAC) may determine that a vote should be taken during the spring of any given year provided that notification of the intent to vote is submitted by February of the year in which the voting is to occur to the Regional Superintendent and the Deputy Superintendent, District/School Operations. Voting shall occur on a specific, advertised date(s) to be effective the following school year.

At least fifty percent (50%) plus one (1) of the parents in that school who vote must vote in favor of establishing a mandatory uniform program. This vote will stand for a minimum of three (3) school years, at which time the EESAC may determine if a subsequent vote is warranted.

New senior high schools shall conduct an initial vote in the spring of their opening year, and thereafter, conduct votes according to the established procedures for all schools.
- B. Every school participating in the mandatory uniform program shall establish a uniform committee that adequately represents administrators, teachers, students, and parents and follows guidelines promulgated by the Superintendent for selection of uniforms. The

committee cannot select a uniform company as an "official uniform company" for a school. Parents must be advised that the selected uniform can be purchased from a variety of sources, such as other uniform companies, department and discount stores, online retailers, catalogs, etc.

- C. The school-selected uniforms shall prohibit types or styles of clothing as specified in the *Code of Student Conduct*, Policy [5500](#). The uniform chosen shall consist of (1) solid colored clothing and fabrics for pants, skirts, shorts, or similar clothing, and (2) short or long-sleeved shirts with collars. The uniform also may include a small logo but not mottos or slogans and must comply with all other provisions of this policy concerning appropriate attire.
- D. The uniforms selected shall not be characterized as gender-specific.
- E. The school shall provide for those students who, by reason of financial hardship, cannot comply with the mandatory uniform policy and notify parents of these provisions.
- F. Exceptions to wearing the uniform are permitted when:
 - 1. Uniforms of a nationally recognized youth organization such as the Boy Scouts or Girl Scouts are worn on regular meeting days.
 - 2. A student wears a button, armband, or other accouterment to exercise the right to freedom of speech as guaranteed by the First Amendment unless they signify or are related to gangs, gang membership, or gang activity.
 - 3. Wearing a school uniform violates a student's sincerely held religious belief.
 - 4. A student's parent requests a reasonable accommodation to address a student's disability or a documented medical condition.
 - 5. The principal has authorized a "no-uniform" day as a fundraiser or reward. The principal may also authorize club shirt or uniform days, and school or community spirit days, in which the mandatory school uniform will not be required.
- G. Exemptions from the mandatory uniform program may be obtained as follows:
 - 1. A request may be made in writing or in person by the parent for an Application for Exemption from the Uniform Program ("Application") which is available at the student's school site. Students exempted from the mandatory uniform program must adhere to the school's dress code.
 - 2. The application must be completed in full and submitted to the Principal.
 - 3. The Principal then meets with the parents to discuss the uniform policy and the objections to the policy. The purposes of this meeting include: (1) verifying the accuracy of the information on the application; and (2) preventing fraud or misrepresentation.
 - 4. Parents should be notified of the exemption procedure.
- H. Compliance with a mandatory uniform policy shall be implemented as follows:
 - 1. Each school shall develop and use incentives and positive reinforcement measures to encourage and achieve full compliance with the uniform policy and should resort to disciplinary action only when positive measures fail to ensure compliance. Schools shall communicate with parents so that expectations, rationale, and benefits are fully understood by students and families.
 - 2. Disciplinary action may be taken to encourage compliance with the policy. Since the intent of the policy is not to inhibit or prohibit any student who is not in uniform from receiving the education to which they are entitled, no student shall be suspended from class or from school, expelled from school, or receive a lowered academic grade as a result of noncompliance.

3. Disciplinary action may be initiated only after all other means to secure support and cooperation have not succeeded. Schools shall use "progressive discipline" to encourage full and consistent compliance with the least amount of disciplinary action.
 4. Prior to initiating any disciplinary action against a student for not complying with the policy, a school administrator or counselor shall hold a conference with the parent to solicit cooperation and support.
- I. The school participates as requested in any required evaluation of the mandatory school uniform program.
 - J. The Board is immune from any civil liability resulting from adoption of this mandatory uniform policy.

Standards for Evaluating the Appropriateness of Dress/Grooming

- A. A student with hair of such length or style that it creates classroom or school disorder, or distracts the attention of another student or students in any class in session from the lesson being presented or from any other assigned classroom activity, or which creates a safety or health hazard for any student in a classroom will be required to change the length or style of the hair. Failure on the part of a student to comply with this requirement shall result in disciplinary measures which may include suspension from school.
- B. A student who wears items of clothing which, because of fit, design, color, texture, inadequate coverage, or some other factor, create classroom or school disorder or distract the attention of another student or students in any class in session from the lesson being presented or from any other assigned school activity, or which create a safety or health hazard for any student in school, shall be required to change the clothing to eliminate the disorder, distraction, or hazard. Failure on the part of a student to do so shall result in disciplinary measures which may include suspension from school.
- C. A student who fails to maintain personal cleanliness, grooming, or neatness of dress which creates classroom or school disorder or distracts the attention of others from assigned classroom activity will be required to maintain a level of personal cleanliness, grooming, or neatness of dress that eliminates the disorder or the distraction of other students. Failure to do so shall result in discipline which may include suspension from school.
- D. Articles of clothing that cause excessive maintenance problems of school property -- for example, shoe cleats that scratch floors or tear rugs, trousers with metal rivets that scratch furniture -- are not allowed. Students who fail to change articles of clothing of this type after being instructed to do so by school employees are subject to discipline which may include suspension from school.

The time, the specific location, the type of activity going on, and whether the alleged offense is the first or repetitious on the part of a student must all be considered when disciplining a student. The primary consideration is correction of a problem by the quickest and most reasonable method so that the instructional program for students may proceed with the least possible disruption.

Dear Parent/Guardian:

All students are required to wear school uniforms at (Insert school name). A safe and disciplined learning environment is the first requirement of an effective school. Students who are safe and secure, who learn basic values and the essentials of good citizenship, are better students. Parents, teachers, and school officials have come to see school uniforms as one positive and creative way to reduce discipline problems and increase school safety.

The potential benefits of school uniforms include:

- Helping students concentrate on their school work
- Helping school officials to recognize intruders who come into the school
- Helping parents and students resist peer pressure
- Increasing school safety by reducing incidents of bullying, theft, and violence
- Building school spirit by creating a sense of teamwork and togetherness

Section IV

Chapter 12 – PTA/Booster Club Activities

I. GENERAL DESCRIPTION

Board Policy 9210 – *Parent Organizations* states that the Board “supports all organizations of parents whose objectives are to promote the educational experiences of District students”. These outside organizations are to be distinguished from the student clubs and organizations, formed by and consisting primarily of students that are an integral part of the school program under the direct leadership of the school principal. Commonly recognized school-allied organizations include, but are not limited to, PTA/PTSAs, Booster Clubs, MECA Faculty Clubs – Social/Sunshine Committees, Boy Scouts, Girls Scouts, Cub Scouts, YMCA, Crime Watch, etc.

A. PARENT-TEACHER/PARENT-TEACHER STUDENT ASSOCIATIONS (PTA/PTSA)

Board Policy 9210 – Parent Organizations, recognizes PTA/PTSA as staunch supporters of public education, describes the objectives of these school-allied groups, and encourages staff members to join and actively participate in their activities. PTA/PTSA groups are school-allied organizations that are governed by the PTA/PTSA general bylaws and constitution. The school principal has the authority of approving the activities of PTA/PTSA groups. Membership of PTA/PTSA groups consists mainly of parents, teachers, and other outside community supporters. Faculty and other school staff who are members of the PTA/PTSA should act mainly as liaisons between the PTA/PTSA and the school, and may not be **1)** co-signers of the organization, or **2)** be involved in the handling of money or merchandise for PTA/PTSA group’s fundraisers or events.

B. BOOSTER CLUBS

A Booster Club is comprised mainly of a group of parents/guardians and/or other interested adult community members who join together to form an organization to enhance and support a school program, activity, or athletic team through fundraising activities and services. For legal purposes, a Booster Club should be a formally incorporated entity by filing its articles of incorporation with the Florida Secretary of State office. A Booster Club must have approved bylaws or a Statement of Purpose. Although it does not have to establish and maintain an executive board, normally the executive board can consist of parents/guardians, interested community members, and a school faculty sponsor. Once approved by the school principal, the club’s general membership meetings must be held at the school. A minimum of one meeting per year is required, and the school

faculty sponsor must attend all general and executive board meetings held. Minutes of all meetings must be maintained with copies given to the school faculty sponsor. The school principal has the final authority of approving all activities conducted by the Booster Clubs. The faculty sponsor acts merely as a liaison between the Booster Club and the school, and **may not** be **1)** a co-signer or officer (*i.e., President, Vice President, Treasurer*, of the Booster Club), nor **2)** involved in the handling of money or merchandise for Booster Club fundraisers or events.

II. GENERAL POLICY

A. The school principal has the overall and final authority for approving the activities of all school-allied organizations (*i.e., PTAs, Booster Clubs, etc.*). Activities conducted by school-allied groups that extend out into the community must be approved by not only the principal, but also by the Region Superintendent.

1. A blanket approval request form for proposed activities, within the school (FM-6570) or out in the community (FM-6571), can be submitted for approval at the beginning of the school year.

2. In the event that a previously approved activity fails to transpire, the school-allied organization should provide notification to the principal that such activity was canceled.

B. School-allied organizations are financially independent from the school, and they conduct their activities separately from school-sponsored activities. To avoid misperceptions to the public and violation of this policy, all school-allied organizations **must**:

1. Keep their own separate financial accounting records.
2. Have their own separate address (except for PTAs/PTSAs), and not use the school's address in any official documents (*i.e., articles of incorporation, bank account, stationery, etc.*).
3. Open a separate bank account under the organization's name to manage their funds.
4. File for their own tax I.D. number.
5. File for their own tax-exempt status.

Section IV

Chapter 12 – PTA/Booster Club Activities

6. Reflect the organization's name on all programs, flyers and other promotional material used for the activities it sponsors.

C. School-allied organizations, except for PTAs/PTSAs, may not incorporate the school's name as part of their official name (i.e., "Coral Park Sr. High Basketball Booster Club" should be "Rams Basketball Booster Club"). Nevertheless, a slogan containing the school's name, following the official organization's name is permissible (i.e., "**Rams Basketball Booster Club**" *in support of Coral Park Sr. High*).

D. Although school staff membership and participation is encouraged in school-allied organization activities, participation is limited to coordinating functions, such as planning, assisting in making arrangements for events/activities, etc.

1. School employees **must not** be co-signers for any school-allied organization(s), or officers of Booster Clubs, nor can they handle money or fundraising merchandise for a school-allied organization chartered at the school at which they are employed.

2. A school employee may function in such capacity at a school other than the one at which he/she is employed.

E. Money raised from school-allied organization activities **must not** be commingled with the school's Internal Fund activities. Funds raised by these organizations for the benefit of the student activity groups they support (i.e., athletic team, music/band, interest club, etc.) should be made available to the school by either:

1. A monetary donation, via check, accompanied by a donation letter specifying the intended use of the funds, or

2. A donation of actual merchandise, equipment, or other items procured by the school-allied organization to support a student activity, which donation should also be accompanied by a letter indicating the purpose and value of the items donated.

F. The following activities **may not** be conducted independently by school-allied organizations:

1. The sale of school pictures of the general student body, including class group pictures.

2. The *sale* of school memory books and/or yearbooks.

Section IV
Chapter 12 – PTA/Booster Club Activities

3. The operation of vending machines that dispense food and beverage items in schools
4. The sale of admission tickets for fundraisers involving student talent (i.e., plays, athletic exhibitions, musical performances, etc.) must be administered by the school with the proceeds accounted for in the Internal Fund accounts by the school treasurer.
5. The collection of money for student field trips organized and conducted through the school. In addition, travel arrangements, accommodations, and payments to vendors for field trip associated expenses **may not** be made by school-allied organizations.
6. The imposing of charges/fees to students/parents by school-allied organizations for equipment, team uniforms, musical instruments, or other items or supplies, etc., that **are required to be used by the student** in order participate in a school activity (i.e., sports teams, cheerleading, band, etc.).

III. GENERAL GUIDELINES FOR SCHOOL-ALLIED ORGANIZATIONS' ACTIVITIES

- A. Members of school-allied organizations **may not** solicit sales for its fundraisers or conduct fundraising activities during school hours. However, at the discretion of the principal, adult non-employee representatives of such groups may distribute items purchased previously by the students.
- B. At the discretion of the principal, the school may further assist these groups by permitting, on assigned days, the collection of funds by an adult non-employee representative of a school-allied group for certain fundraising activities as deemed appropriate.
- C. To avoid violations of policy, approved outside allied groups (including PTA) should conduct their activities in such a way that they will be clearly distinguished from school-sponsored student/club activities. Public announcements, programs, and tickets should clearly designate the activities as those of the school-allied organization even though the activity may be held on school grounds. Samples of such activities would include, but may not be restricted to, the following:
 1. Carnivals, barbecues, dinners, and similar activities, conducted entirely by the school-allied organizations, and not involving any school employee

Section IV

Chapter 12 – PTA/Booster Club Activities

in the handling of funds. No activities involving any form of gambling or games of chance can be conducted on school grounds.

2. Benefit shows or performances by non-school groups, such as college or professional music groups, when arrangements are made by outside organizations, as long as no school employee is involved in the handling of funds.

3. Merchandising services such as school store handled by PTA, when PTA orders merchandise in its name, completely handles sales activities, receipts and disbursements of money without involving any school employee.

4. Approved fundraising activities conducted by school-allied organizations may involve student participation with proper adult supervision by members of the school-allied organization, but **may not** involve school employees in the handling of merchandise or sales proceeds. For such fundraising activities:

- a. Merchandise for sale or use by an outside school-allied organization **must** be ordered in name of organization.
- b. No school-allied organization, with the exception of the PTA/PTSA may ship merchandise to the school.
- c. Merchandise ordered by the PTA/PTSA **may only** be shipped to the school if:
 - 1) The school principal has agreed **in advance** to permit that the merchandise be shipped to the school,
 - 2) A non-school employee of the school-allied organization has provided written notification to the school accepting responsibility for the payment of the merchandise or showing evidence that it has been pre-paid,
 - 3) No merchandise can be stored on school premises without the authorization of the school principal or designee. **Notwithstanding** the principal's consent, the school **will not** assume responsibility for theft, loss or damage to merchandise stored on school premises.
