CHAPTER I - INFORMATION FOR STUDENTS AND PARENTS/GUARDIANS
Introduction

The primary objective of Miami-Dade County Public Schools (M-DCPS) is to enhance each student's potential for learning and to foster positive interpersonal relationships. M-DCPS supports the concept that students who possess personal, academic, civic and occupational adequacies will become effective and productive citizens. Students must develop and accept the responsibilities and obligations of citizenship. This document helps students take control of their own learning and their ability to positively alter outcomes by employing appropriate personal choices and skills.

The Code of Student Conduct is the District’s policy that creates a safe learning environment to ensure academic success. If this objective is to be accomplished, it is necessary that the school environment be a safe and supportive community. The “reculturing” of the school to a positive school climate supports academic achievement and promotes fairness, civility, acceptance of diversity, and mutual respect.

To enhance its effectiveness, this document addresses the role of the parents, the students, and school, but also core values and model student behavior, rights and responsibilities of students, Multi-tiered System of Supports (MTSS), and procedures for using corrective strategies, including suspension and expulsion. The District promotes the following beliefs:

- All students are valuable and can make worthy contributions to society.
- All students are responsible and accountable for their choices and decisions.
- In order to grow and thrive, individuals need caring relationships and a nurturing environment.
- Supportive family relationships are the foundation of the community.
- High expectations lead to higher performance that empower individuals and strengthen society.
- Continuous learning is a lifelong process that is essential to a productive and enriched life.
- Suspension and expulsion of students from school programs are a last resort, to be utilized only in the most extenuating circumstances as determined by the principal after other learning-centered corrective strategies have been utilized and with Region/District notification.

Students, parents/guardians, and school employees are encouraged to read the Code of Student Conduct and become familiar with its content. Related Board Policies may be found on the Miami-Dade Public Schools Website at http://www.dadeschools.net/schoolboard/rules/.
Scope of Authority

This Code of Student Conduct is used to govern conduct and discipline of all students attending Miami-Dade County Public Schools. It is expected that students obey District rules while on school grounds; while being transported to or from school at public expense while on the school premises for instruction, and for authorized participation in a school-sponsored activity. During such times, all students are subject to the immediate control and direction of teachers, staff members, and/or bus drivers to whom such responsibility has been assigned by the principal.

This Code of Student Conduct also applies to students who commit felonies or delinquent acts which would be felonies if committed by an adult, off School Board owned property or whose off-campus conduct creates a substantial disruption to the school environment.

Off-campus conduct and conduct outside of school time that violates the District's Code of Student Conduct may also be the basis for discipline up to expulsion if it is accomplished through electronic means and substantially disrupts the educational process or orderly operation of a school. Off-campus conduct that poses a threat or danger to the safety of other students, staff, School Board members, any other members of the District Community, or school property may constitute behavior that has a substantial adverse impact on the educational environment requiring disciplinary action.

Students should be advised that violations of the Code of Student Conduct may also be violations of Florida law. Thus, students may be subject to school/district level disciplinary actions as well as discipline imposed by local law enforcement authorities. School Resource Officers (SRO) and other law enforcement authorities have the power to conduct investigations independent of those conducted by school personnel for the same incident. Furthermore, the sanctions imposed by the school district for misconduct are separate and distinct from the consequences that may be imposed following the arrest and prosecution of a student for a violation of law originating from the same incident. Please keep in mind that failure of one entity to act does not prevent the other from taking appropriate actions consistent with this Code of Student Conduct or with Florida law.
Core Values and Examples of Model Student Behavior

The Miami-Dade County Public Schools District is committed to helping all students in developing the values necessary to participate as caring, responsible citizens in our nation’s democracy. Response to Intervention for Behavior (RtIB) is part of a Multi-Tiered System of Supports (MTSS). RtIB/MTSS is a school-wide model that utilizes an evidenced-based, problem solving approach to improve the educational outcome for all students. RtIB/MTSS provides a continuum of tiered interventions with increasing levels of intensity and duration that aims to prevent inappropriate behavior by means of teaching and reinforcing appropriate behavior. The following core values were adopted by the School Board on July 26, 1995.

<table>
<thead>
<tr>
<th>Core Value</th>
<th>Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td>Citizenship</td>
<td>Helping to create a society based upon democratic values including rules of law, equality of opportunity, due process, reasoned argument, representative government, checks and balances, rights and responsibilities and democratic decision-making, e.g., obeying classroom and school rules.</td>
</tr>
<tr>
<td>Cooperation</td>
<td>Working together toward goals as basic as human survival in an increasingly interdependent world, e.g., being a member of the team on the athletic field.</td>
</tr>
<tr>
<td>Fairness</td>
<td>Treating people impartially, not playing favorites, being open-minded, and maintaining an objective attitude toward those whose actions and ideas are different from our own, e.g., treating people the same, regardless of their ethnicity, race, religion, gender, or physical condition.</td>
</tr>
<tr>
<td>Honesty</td>
<td>Dealing truthfully with people, being sincere, not deceiving them or stealing from them, not cheating or lying, e.g., doing one’s own work when taking a test or working on an individual assignment.</td>
</tr>
<tr>
<td>Integrity</td>
<td>Standing up for your beliefs about what is right and what is wrong and resisting social pressure to do wrong, e.g. doing the right thing even when no one is watching.</td>
</tr>
<tr>
<td>Kindness</td>
<td>Being sympathetic, helpful, compassionate, benevolent, agreeable and gentle toward people and other living things, e.g., helping a fellow student who has been injured.</td>
</tr>
<tr>
<td>Pursuit of Excellence</td>
<td>Doing your best with the talents you have, striving toward a goal and not giving up, e.g., putting forth one’s best effort when taking an exam or doing homework.</td>
</tr>
<tr>
<td>Respect</td>
<td>Showing regard for the worth and dignity of someone or something, being courteous and polite, and judging all people on their merits. Respect takes three major forms: respect for oneself, respect for other people, and respect for all forms of life and the environment, e.g., practicing acceptable manners in the school cafeteria.</td>
</tr>
<tr>
<td>Responsibility</td>
<td>Thinking before you act and being accountable for your actions, paying attention to others, and responding to their needs. Responsibility emphasizes our positive obligations to care for each other, e.g., performing a community service project.</td>
</tr>

Values Matter Recognition

Values Matter Miami is Miami-Dade County Public Schools’ values education initiative which was created to teach and promote the District’s nine core values: citizenship, cooperation, fairness, honesty, integrity, kindness, pursuit of excellence, respect, and responsibility. This initiative aims to develop positive student behavior and support schools in creating a culture where everyone is treated with respect, dignity, and kindness.

As part of the Values Matter Miami Initiative, Miami-Dade County Public School employees are asked to nominate students who exemplify the designated value each month. These award nominations allow staff members to recognize and celebrate student behaviors that align with our District’s nine core values. Schools are encouraged to host monthly Values Matter Miami celebrations as a way of reinforcing these positive behaviors. District winners are selected from school nominations for each value and winners are recognized at a Districtwide Values Matter Miami Awards Ceremony at the end of the school year.

A Synopsis of Model Student Behavior – Level I

Level I Behavior affects the orderly operation of the classroom, school functions, extracurricular/co-curricular programs or approved transportation. The core principle of the multi-tiered RtI/MTSS model is to provide general academic and behavior instruction and support to all students in all settings. The multi-tiered RtI/MTSS model is a continuum of tiered interventions with increasing levels of intensity and duration that aims to prevent inappropriate behaviors by means of teaching and reinforcing appropriate behaviors. Model student behavior creates a safe learning environment and reduces disruption of the educational process.

SAFEGUARDS: PROTECTING THE RIGHTS OF STUDENTS AND PARENTS/GUARDIANS

All corrective strategies used by school-site administrators must be in compliance with School Board rules and policies. Inherent in these rules and policies is the philosophy of fairness and consideration for actions that are in the best interest of students.

When confronted with an act that may require the imposition of corrective strategies by the school, the student and all other appropriate persons should be given the opportunity to explain the circumstances of the incident.

Students shall not be subjected to any corrective strategies for using a language other than English or because of a disability.

School administrators should communicate with parents/guardians when corrective strategies must be taken against a student.

Parents/guardians and students who disagree with certain strategies and decisions made at the school level have the right to the following formal complaint procedures:

- a school-level hearing;
- appeal of school-level decisions to the regional center office; and
- for alternative education assignments and expulsions, a hearing before an impartial hearing officer.
CHAPTER III - STUDENT RIGHTS AND RESPONSIBILITIES
Student Rights and Responsibilities

It is the intent of this chapter to allow students maximum freedom under law, commensurate with the school’s responsibility for student health, safety, and welfare. The rights and responsibilities presented in this section reflect the need for providing students with greater opportunities to serve themselves and society.

Students must realize that every right implies a responsibility, and should conduct themselves appropriately on and off campus. Within every school, the principal and staff have the responsibility and authority for maintaining an orderly educational process. Students are citizens of the greater Miami-Dade Community and represent Miami-Dade Schools at all times.
**Attendance**

**Philosophical Basis:**
School administrators have an obligation under state law to enforce compulsory school attendance laws. Students have an obligation to avail themselves of the opportunity for public school education, an education that should help the students develop the skills and knowledge necessary to function in a modern, democratic society.

<tr>
<td>☐ Students have the right to information on rules, policies and procedures that clearly define excused absences, unexcused absences, and tardies.</td>
<td>☐ Students have the responsibility to take advantage of their educational opportunity by attending all classes daily and on time, unless circumstances beyond their control prevent them from doing so.</td>
</tr>
<tr>
<td>☐ Students have the right not to be penalized in any way for excused absences. Participation in a school-sponsored activity shall be considered an excused absence.</td>
<td>☐ Students have the responsibility to provide the school an adequate explanation for an absence with appropriate documentation.</td>
</tr>
<tr>
<td>☐ Students have the right to make up classwork within three days of returning to school in the case of an excused absence or absence because of assignment to an AES or suspension.</td>
<td>☐ Students have the responsibility to request the make-up assignments from their teachers for excused absences upon their return to school and to complete this work within three days.</td>
</tr>
</tbody>
</table>

**Complaint Procedures**

**Philosophical Basis:**
When students wish to express dissatisfaction about a situation in the school, they can submit a formal complaint. Schools are responsible for providing mechanisms for the expression and resolution of these complaints.

<table>

</tr>
<tr>
<td>☐ Students have the right to expect that discrimination and formal complaints will be resolved in an expeditious, orderly, and equitable manner.</td>

**SPECIAL NOTE**

¹ Harassment (Civil Rights) and Sexual Harassment do not require a SPAR, but must be reported to the Civil Rights Compliance Office at 305-995-1580. A student who is the victim of sexual harassment prohibited by Title IX is entitled to file a formal complaint in accordance with the District’s *Title IX Sexual Harassment Manual* and request an investigation.

### Counseling Services

#### Philosophical Basis:

Personal concerns can seriously threaten and inhibit the educational development of students. Schools have the responsibility to make relevant and objective information available to students, to provide a comprehensive Student Services program, and to recommend students to agencies equipped with the facilities and resources necessary to offer additional, direct assistance.

<table>
<thead>
<tr>

</tr>
<tr>
<td>□ Students have the right to request a change of counselor.</td>
<td>□ Students have the responsibility to work cooperatively with the administration in seeking this change.</td>
</tr>
</tbody>
</table>
Free Speech, Expression and Assembly

Philosophical Basis:
One of the basic purposes of education is to prepare students for responsible self-expression in a democratic society. Citizens in our democracy are permitted self-expression under the First and Fourteenth Amendments of the United States Constitution. Full opportunity should be provided for students to inquire, to question, and to exchange ideas. They should be encouraged to participate in discussions in which many points of view, including those that are controversial, are freely expressed.

<td>□ Students have the responsibility to plan, seek approval of, and conduct activities that are consistent with the educational objectives of the school.</td>

Code of Student Conduct – Secondary

Grades

Philosophical Basis:
Grades, are an indicator of the students’ knowledge or skill at any particular time, although they are not necessarily an accurate gauge as to whether learning has taken place. However, since much emphasis is placed upon grades, students’ academic grades should reflect the teacher’s most objective assessment of students’ academic achievement. Academic grades should not be used as a threat in order to maintain classroom decorum.

Rights:  Responsibilities:
☐ Students have the right to be informed of the teacher’s grading criteria, which is consistent with district guidelines, at the beginning of each grading period.  ☐ Students have the responsibility to ask teachers in advance of a graded assignment for an explanation of any grading criteria or practice they may question or that needs clarification.
☐ Students have the right to receive an academic grade that reflects their achievement.  ☐ Students have the responsibility to maintain reasonable standards of academic performance commensurate with their ability.
☐ Students have the right to be notified when they are performing unsatisfactorily.  ☐ Students have the responsibility to make every effort to improve their performance upon receipt or notification of unsatisfactory performance.
☐ Students have the right to receive a conduct and effort grade in each class consistent with their overall behavior and effort.  ☐ Students have the responsibility to conduct themselves in each class in ways that are conducive to the learning process.
☐ Students have the right to achieve academic success based upon their own initiative and ability without interference from others.  ☐ Students have the responsibility to earn grades based upon their performance while guarding against cheating by other students.

Knowledge and Observation of Rules of Conduct

Philosophical Basis:
The most effective learning takes place in an atmosphere where students, parents/guardians, and school staff are fully aware of the grounds for corrective strategies and the procedures to be followed for violations of the Code of Student Conduct.

Rights:  Responsibilities:
☐ Students have the right to a clear explanation of the Code of Student Conduct in understandable language. They have the right to know the consequences of their misconduct.  ☐ Students have the responsibility to become familiar with the Code of Student Conduct and to observe all school and classroom rules.
Marriage, Pregnancy and Parenthood

Philosophical Basis:
Students who are married, parents/guardians, or expectant parents/guardians do not lose their right to free public education. It is, therefore, the responsibility of the public schools to encourage their continued education through the implementation of positive policies and the development of appropriate educational programs.

<table>
<thead>
<tr>
<th>Rights:</th>
<th>Responsibilities:</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Students who are married, parents or expectant parents have the right to remain in the regular school program, including appropriate extracurricular activities, or to attend one of the specialized programs designed to meet their particular needs.</td>
<td>□ Students have the responsibility to request professional medical advice regarding continued school attendance.</td>
</tr>
<tr>
<td>□ Students have the right, upon request, to be referred to an appropriate agency for special counseling regarding marriage, pregnancy, and parenthood.</td>
<td>□ Students have the responsibility to request special counseling regarding marriage, pregnancy, and parenthood.</td>
</tr>
</tbody>
</table>

Participation in School Programs and Activities

Philosophical Basis:
Students learn from one another. Positive association with others may contribute to the overall goals of education. Schools have the responsibility to promote appropriate formal and informal school programs and activities among students.

<table>
<thead>
<tr>
<th>Rights:</th>
<th>Responsibilities:</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Students have the right to organize and participate in associations and extracurricular activities within the school that are organized for any proper and lawful purposes. Group membership cannot be denied any student because of gender, gender identity or expression, race, color, religion, ethnic or national origin, political beliefs, marital status, age, sexual orientation, social and family background, linguistic preference, pregnancy or disability.</td>
<td>□ Students have the responsibility to seek prior and proper consent from administrators and other designated school personnel before organizing student associations and for meeting approved criteria for membership in clubs and organizations.</td>
</tr>
<tr>
<td>□ Students have the right to have an elected representative student council appropriate to the school’s level, and to take an active part in student activities designed to help make rules that affect their lives in school.</td>
<td>□ Student council officers and representatives have the responsibility to be aware of school needs and concerns of the student body and to work toward meeting those needs.</td>
</tr>
<tr>
<td>□ Students have the responsibility to participate regularly in their respective organizations, to conduct themselves in an appropriate manner, and to operate according to School Board policies and individual school requirements.</td>
<td>□ Students have the responsibility to participate regularly in their respective organizations, to conduct themselves in an appropriate manner, and to operate according to School Board policies and individual school requirements.</td>
</tr>
</tbody>
</table>
**Publications**

**Philosophical Basis:**
The primary liberties in students’ lives have to do with the process of inquiry and learning, of acquiring and imparting knowledge, and of exchanging ideas. This process requires that students have the right to express opinions, to take stands, and to support causes publicly or privately. One of the important roles of the school is to provide effective avenues through which students may express themselves on a wide range of subjects. Official school publications, such as school newspapers, should reflect the policy and judgment of the student editors and should include viewpoints representative of the entire school community.

<table>

</tr>
<tr>
<td>□ Students have the right to be free from censorship of their publications except within the framework of guidelines previously agreed upon by current students and administrators.</td>
<td>• Students have the responsibility to use only those bulletin boards or wall area designated for use by students and student organizations, to seek approval for distribution of materials, and to accept responsibility for the effect that the posting, publication, or distribution of this literature might have on the normal activities of the school.</td>
</tr>
<tr>
<td></td>
<td>• Students have the responsibility to refrain from publishing libelous and obscene materials, to seek full information on the topics they write about, and to observe the normal rules for responsible journalism.</td>
</tr>
</tbody>
</table>

Principals may restrict distribution of materials that are primarily commercial in nature or disruptive to the orderly operation of the school.

**Respect for Persons and Property**

**Philosophical Basis:**
Students have an obligation to assume responsibility for their own actions regarding respect for other persons and their property. The school must provide a climate that fosters respect for persons and property.

Right to Learn

Philosophical Basis:
All students, in accordance with their age, grade level, and maturity, have the right to be involved in their education. Course selection and participation in school activities are an integral part of learning. Students’ opinions concerning course materials, content, and relevance are important and deserve analysis and consideration by educators.

#### Search and Seizure

**Philosophical Basis:**
Students possess the right of privacy as well as freedom from unreasonable search and seizure of person or property guaranteed by the Fourth Amendment of the United States Constitution. That individual’s right, however, is balanced by the school’s responsibility to protect the health, safety, and welfare of all its students.

#### SPECIAL NOTES

1 School authorities may search a student’s person or property, including vehicles, with or without the student’s consent whenever they reasonably suspect that there has been a violation of law, Board policy, or school rules. This authority applies to all situations in which the student is under the jurisdiction of the Board.

*Signs that advise students and visitors that they are subject to search for weapons by metal detectors will be posted in prominent locations at each secondary school and adult vocational site.*
Philosophical Basis:
The respect afforded a student government is a result of its active and constructive involvement in the daily operation of the school. In order to be effective, student government and its concomitant responsibilities suggest that representatives be given an opportunity to participate in those decisions that affect the learning climate of the school. To enhance the deliberating process, Board Policies and individual school policies should be available to students in a specific location. Respected student governments are forums for expression, discussion, and action regarding important issues. All members of the school community share the responsibility for shaping student governments into positive instruments of student involvement.

A student’s record contains information useful for advisement, counseling, individual instructional program design, recommendations for advanced study, job placement and other information needed for making appropriate educational decisions. VITAL ALERT: District Policy Against Bullying and Harassment

**Cyberstaking** means to engage in a course of conduct to communicate, or to cause to be communicated, words, images, or language by or through the use of electronic mail or electronic communication, directed at a specific person, causing substantial emotional distress to that person and serving no legitimate purpose.

**Cyberbullying** means bullying through the use of technology or any electronic communication, which includes, but is not limited to, any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including, but not limited to, electronic mail, Internet communications, instant messages, or facsimile communications. VITAL ALERT: Implication of Certain Sex Offenses

Minors convicted or adjudicated delinquent for certain sex offenses may be required to register with the State of Florida as a sexual predator or sex offender and will suffer the restrictions and embarrassment of this requirement as defined in Sections 943.0435, 943.04354, 943.0515, 985.481, 985.4815, and 775.21. F.S.

VITAL ALERT: Individuals with Disabilities in Education Act (IDEA): Students with a 504 Plan

Behavioral interventions that are used to address actions committed by students who meet the guidelines established by the Individuals with Disabilities in Education Act (IDEA) and/or Section 504 of the Rehabilitation Act of 1973 must adhere to federal law, Florida Statutes, Florida Board of Education Rules, and Miami-Dade County School Board Policies.

Assignments to an Alternative Educational Setting (AES), Suspensions and Expulsions for more than ten (10) consecutive days and/or a pattern of suspensions and expulsions that exceed ten (10) days in a school year may be considered “changes in placement” for students with disabilities who have a Section 504 Plan or who are enrolled in Exceptional Student Education (ESE) placement under the Individuals with Disabilities Education Act (IDEA). When the student is removed from his/her educational placement for more than ten (10) days, a manifestation determination must be conducted to review the Behavior Intervention Plan (BIP) and consider whether other strategies, interventions, or assessments are appropriate and the student must be provided appropriate educational services in order to provide a free appropriate education. Schools must take into account the student’s capacity to understand his or her behavior and the inappropriateness of his or her actions.

Discipline guidelines for IDEA students with disabilities are specified in the District’s Exceptional Student Education Policies and Procedures (SP&P), Board Policy 2260 - and discipline guidelines for Section 504 students with disabilities as outlined in Board Policy 2260.01 – Section 504 Procedures for Students with Disabilities.

VITAL ALERT: Off-Campus Conduct

Off campus conduct and conduct outside of school time that violates the district's Code of Student Conduct may also be the basis for discipline up to expulsion if it is accomplished through electronic means and substantially disrupts the educational process or orderly operation of a school. Off-campus conduct that poses a threat or danger to the safety of other students, staff, School Board members, any other members of the District Community, or school property may constitute behavior that has a substantial adverse impact on the educational environment requiring disciplinary action.
**VITAL ALERT: Off-Campus Felony Offenses**

To minimize off-campus acts that might have an adverse impact on the school environment, the District office will send notifications to schools of students who have been taken into custody for and/or are formally charged with an off-campus felony or delinquent act that would be a felony if committed by an adult. The principal may take administrative action against those students who are formally charged if, after an administrative hearing with notice provided to the parent/guardian of the student, it is shown that the incident has an adverse impact on the educational program, discipline, or welfare of the school.

Students and parents/guardians should be aware that felony offenses can have a serious impact on an individual’s future, including the following:

- criminal penalties;
- loss of scholarship eligibility;
- loss of voting privileges;
- loss of employment opportunities; and/or
- loss of driving privileges.

**VITAL ALERT: Procedures for Implementing the 45 School Day Alternative Placement Rule for Students With Disabilities**

- The IDEA identifies three specific types of conduct that may trigger unilateral placement of a student with a disability in an Interim Alternative Educational Setting (IAES), without regard to whether the behavior is determined to be a manifestation of the child's disability.

- A student may be removed to an IAES for not more than 45 school days regardless of whether the behavior is determined to be a manifestation of the student’s disability, where the student:
  
  i. carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of a state or local educational agency;
  
  ii. knowingly possesses or uses illegal drugs*, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency; or
  
  iii. inflicts serious bodily injury** on another person while at school, on school premises, or at a school sponsored activity.

When a student commits one of the special circumstances listed above, the school where the violation occurred must provide to the parent (1) FM 7063-Notice of 10-Day Temporary Assignment to Pathways: Consideration of Expulsion. Copies of this document must be retained for future meetings.

The school where the incident occurred must immediately place an E5 in the Student Case Management System (SCMS), send FM6562 Rev. (11-05), Expulsion Request to alted@dadeschools.net, and follow up to ensure that the SPAR is in the SCMS as quickly as possible. The student will be assigned to the alternative placement as soon as possible. Upon placement by the Division of Educational Opportunity and Access (DEOA), the Special Education
## VITAL ALERT: Procedures for Implementing the 45 School Day Alternative Placement Rule for Students With Disabilities

(SPED) Department Chairperson or Program Specialist shall contact the assigned school and forward a copy of the student’s existing Individual Educational Plan (IEP). The assigned alternative school shall implement the student’s current IEP, including all related services upon the student’s arrival.

Note: If the student is arrested and sent to the Juvenile Detention Center (JDC), the time at the JDC is not included in the 45 school day timeline at the alternative placement. The student should go immediately to the 45 school day placement upon dismissal from the JDC.

Within 10 school days of the incident, an IEP meeting, which includes a representative from the sending school, must be convened by DEOA to determine if the behavior is a manifestation of the student’s disability.

When the behavior is found to be a manifestation of the student’s disability, the receiving IAES is responsible for maintaining a record of the number of days the student is enrolled. Ten (10) days prior to the end of the mandatory 45 school day placement, the IAES shall notify the sending school and corresponding SPED Center to schedule an IEP meeting. The IEP meeting will be held at the IAES with representatives from the home and/or sending school. The IEP team shall decide the next appropriate placement for the student. The following placements shall be considered:

- Remain in the Interim Alternative Education Setting under appropriate circumstances
- Return to sending school
- Assignment to another school
- Consider other IEP placement options

**SPECIAL NOTE:**

** Serious Bodily injury applies only when there is:

- a substantial risk of death;
- extreme physical pain;
- protracted and obvious disfigurement; or
- protracted loss or impairment of the function of a bodily member, organ, or mental faculty.
**VITAL ALERT:**

**Sexting**

*Board Policy 5136.02 - Sexting,* prohibits “sexting” which is the act of sending or forwarding sexually explicit, nude, or partially nude photographs/images through cellular telephones and other electronic media.

Sexting is prohibited and will not be tolerated. The policy 5136.02-Sexting, Sexting addresses sexting, and will be enforced pursuant the *Code of Student Conduct*.

The levels of sexting offenses are:

**Sexting (1)**
- A personal, 1-to-1 student-to-student exposure/transmission which is not coerced and not intended for redistribution.

As an example, a student may voluntarily send a provocative sext that includes a nude photograph/image to his/her boyfriend or girlfriend. The Sexting 1 offense is a Level III violation in the *Code of Student Conduct*. The principal must conduct a parent/guardian conference and apply at least one of the additional disciplinary strategies from Level III.

**Sexting (2)**
- Transmission or re-transmission of a sext to an expanded group of recipients.

As an example, a student who has received a sext proceeds to re-transmit the message to a few other students. A second or multiple offense of a Sexting 1 act also constitutes a Sexting 2 offense. The Sexting 2 offense is a Level IV violation of the *Code of Student Conduct*. The principal/designee must conduct a mandatory parent/guardian conference and apply at least one of the additional disciplinary strategies from Level IV.

**Sexting (3)**
- Broad exposure/distribution of a sext without consent and/or transmittal with the intent to victimize another individual.

As an example, a student who has received a sexting message posts the photograph/image on a social networking website in order to subject the individual photographed to ridicule, derision, scorn, etc. A Sexting 3 offense is also the repeated commission of sexting Level 1, 2 and/or 3 offenses. A Sexting 3 offense is a Level V violation of the *Code of Student Conduct* because it involves extreme behaviors that seriously endanger the health and well-being of others and/or damages property or character. The principal/designee must conduct a parent/guardian conference and apply at least one of the additional disciplinary strategies from Level V.

All sexting cases require a Student Services Referral (R7).

A first sexting offense committed by a minor is a non-criminal violation punishable by up to eight (8) hours of community service or subject to a $60 fine, and/or required training or instructional classes on the dangers of sexting. A second offense is a misdemeanor and the third is a felony with a possible maximum five (5) year prison sentence.
**VITAL ALERT: Threats of Violence**

Students are prohibited from making direct or indirect threats of violence against individuals or groups. Even threats made in jest or in exaggeration must be treated as serious threats. Any threat of such violence must be reported immediately to a teacher or school administrator. **A threat to use a dangerous instrument or weapon on school grounds, on school sponsored transportation, or at any school sponsored activity, is prohibited.** All threats of violence (oral, written, electronic, or symbolic) will be reported to law enforcement and investigated by school officials. A student, regardless of age, found to have made a threat of violence shall be referred to mental health services and is subject to appropriate disciplinary consequences, up to and including: assignment to Alternative Educational Setting, suspension, expulsion, arrest, and/or prosecution, and may be referred to the school’s Threat Assessment Team. When students use social media to threaten other students or school employees which has a direct effect on school property, law enforcement may be requested to conduct a “home visit” and/or law enforcement may be involved which could result in criminal prosecution.

It is unlawful for any person to threaten to throw, project, place, or discharge any destructive device with intent to do bodily harm to any person or with intent to do damage to any property of any person, and any person convicted thereof commits a felony of the second degree pursuant to F.S. 790.162.

It is unlawful for any person to make a false report, with intent to deceive, mislead, or otherwise misinform any person, concerning the placing or planting of any bomb, dynamite, other deadly explosive, or weapon of mass destruction pursuant to F.S. 790.166, or concerning the use of firearms in a violent manner against a person or persons, and any person convicted thereof commits a felony of the second degree pursuant to F.S. 790.163.

Any person who writes or composes and also sends or procures the sending of any letter, inscribed communication, or electronic communication, whether such letter or communication be signed or anonymous, to any person, containing a threat to kill or to do bodily injury to the person to whom such letter or communication is sent, or a threat to kill or do bodily injury to any member of the family of the person to whom such letter or communication is sent, or any person who makes, posts, or transmits a threat in a writing or other record, including an electronic record, to conduct a mass shooting or an act of terrorism, in any manner that would allow another person to view the threat, commits a felony of the second degree pursuant to F.S. 836.10.

**VITAL ALERT: Under the Influence**

The impairment of one’s normal faculties, such as walking, talking, etc., as may be evidenced by, but not limited to: bloodshot eyes, slurred speech, odor of alcohol/elicit substance, stumbling, imbalance, drowsiness, flushed face.”

**Special Note:** These observations may be made by a lay (non-expert) witness. An administrator may come to the conclusion that a student is under the influence of alcohol or an illicit substance based on the totality of the circumstances. An administrator should first rule out that the student is having a reaction to food or authorized prescription medication or experiencing a medical condition. See Vital Alert on the next page page(s) 45 – Use of Medication.
### VITAL ALERT: Use of Medication

According to the *Board Policy 5330-Use of Medications*, the School Board is not responsible for the diagnosis and/or treatment of student illnesses. The administration of prescribed medication and/or medically-prescribed treatments to a student during school hours is permitted only when failure to do so would jeopardize the health of the student, the student would not be able to attend school if the medication or treatment were not made available during school hours, or the child is disabled and requires medication to benefit from his/her educational program.

Medication includes all medicines including those prescribed by a medical provider and any nonprescribed (over-the-counter) drugs, preparations, and/or remedies. "Treatment" refers to the manner in which a medication is administered and to health-care procedures which require special training, such as catheterization.

Written medication authorization (Form 2702) signed by the child's medical provider and parent shall be provided before any prescribed medication or treatment may be administered to any student during school hours. Parents may administer medication or treatment. The child's medical provider and the parent must also authorize in writing any self-medication by the student such as epi-pens and inhalers.

Medication shall not be carried on a student's person in the school except as approved by the principal. Furthermore, no student is allowed to provide or sell any type of over-the-counter medication to another student.

### VITAL ALERT: Use of Technology and Computer Related Offenses

Students are encouraged to use computers, networks, and online telecommunication such as the Internet and electronic mail (e-mail). While exercising the right to use available technology, students must be aware of their responsibility as users. Technology advancement has provided students with access and the opportunity to commit offenses that violate the Code of Student Conduct.

When using electronic devices for the purposes of learning consistent with the educational objectives of the District during the instructional day, students must comply with *Board Policy 7540.03 – Computer Technology and Networks*.

Technology and computer-related offenses include, but are not limited to:

**Technology and Computer Related Offense (1)**

- Accessing or facilitating the access of a computer, electronic device, or networked resource without authorization.
- Computer use inconsistent with educational usage or goals, or any use that violates applicable copyright laws.
Use of Technology and Computer Related Offenses

Technology and Computer Related Offense (2)

- Modifying and/or distributing student data and/or records (including grades) or Personally Identifiable Information (PII) without authorization.

- Engaging in the disruption or denial of service to a computer, electronic device, or networked resource.

- The destruction or damage, either virtual or physical, of a computer, electronic device, or networked resource, including any stored data.

- The introduction of viruses, malware or other illegal/inappropriate software, including unauthorized network monitoring or hacking tools.

- The act of engaging in surveillance of an individual, including the use of a computer’s camera or microphone or unauthorized remote desktop or keystroke logging software.

- Using a computer, electronic device, or networked resource to access or transmit materials containing profanity, lewd, pornographic, or inappropriate content (including racially/ethnically insensitive or offensive language).

- Utilizing a computer, electronic device, or network resources to send threats or engage in illegal activities.

Technology and Computer Related Offense (3)

- Using a computer, electronic device, or networked resource to create access, transmit, or distribute material containing profanity, lewd, pornographic, or inappropriate content and involving a minor.

- Accessing, modifying and/or distributing student data and/or records (including grades) or Personally Identifiable Information (PII), including but not limited to social security number(s), etc. for financial gain.

- The destruction, damage, or interruption, either virtual or physical, of any District information system.

These are only a few examples of violations committed through electronic means. The school administration will evaluate and determine the appropriate level infraction under the Code of Student Conduct.
VITAL ALERT: Wireless Communication Devices

Wireless communication devices include two-way communication devices, such as cellular phones, mobile phones, MP3 players, electronic games, beepers, pagers, portable computers including but not limited to laptops, personal digital assistants (PDA), tablets, eReaders, iPads, personal organizers and similar wireless devices. Possessing a wireless communication device is not a violation of the Code of Student Conduct. However, a student shall not disrupt the educational process or interfere with the safety-to-life issues of students by using a wireless communication device inappropriately.

When using electronic devices for the purposes of learning consistent with the educational objectives of the District during the instructional day, students must comply with Board Policy 7540.03 – Student Responsible Use of Technology, Social Media, and District Network Systems, Student Network and Internet Acceptable Use and Safety.

The following rules must be followed regarding the possession, use, and display of wireless communication devices:

☐ Students may only possess, display and use wireless communication devices (i.e. texting, email, telephone etc.) before or after the instructional day.

☐ Students must ensure that the telephone capabilities of their devices are turned off during the instructional day (i.e. ringer off, silent mode, etc.)

☐ Students shall avoid classroom disruptions, by not displaying, using, or activating the data access portion of their wireless communication devices during the instructional day unless instructed to do so by the teacher and/or authorized school personnel under the Bring Your Own Device initiative outlined in Board Policy 7540.03. This includes during class, in the library, during lunch breaks, during class changes and during any other structured activity. Unless using its data access capabilities for instructional purposes as directed by their teacher and/or authorized school personnel as outlined in Board Policy 7540.03.

☐ Students may not use the broadband capabilities (3G, 4G, etc…) of personal devices for data access during school hours – students may only access data utilizing the school’s wireless network during this time.

☐ The school is not responsible if a student’s wireless communication or any electronic device is lost or stolen.

The possession of a cellular telephone is not a violation of the Code of Student Conduct. However, the possession of a cellular telephone that disrupts the educational process, the use of the cellular telephone capabilities during school hours, use of a cellular phone to commit a crime, and the possession or use of a cellular telephone that disrupts or interferes with the safety-to-life issue for students being transported on a Miami-Dade County Public Schools bus, are infractions of the Code of Student Conduct.
The School Board enforces the Florida Department of Education Zero Tolerance Policy on school violence, crime, and the use of weapons. As an approach to reducing school violence, the intent of the policy is to provide a safe school climate that is drug-free and protects student health, safety, and civil rights.

This policy requires the school district to impose the most severe consequences provided for in the *Code of Student Conduct* in dealing with students who engage in violent criminal acts, such as:

- bringing or possessing a firearm or weapon to school, any school sponsored activity, or on school-sponsored transportation; shall also result in a referral for expulsion and mental health services pursuant to Section 1006.13 F.S.
- making a threat or false report, respectively, involving school or school personnel’s property, school transportation, or school-sponsored activity; shall also result in a referral for expulsion and mental health services pursuant to Section 1006.13 F.S.
- homicide;
- assault, battery, and culpable negligence;
- relating to kidnapping, false imprisonment, luring or enticing a child, and custody offenses;
- sexual battery;
- lewdness and indecent exposure;
- child abuse;
- robbery;
- robbery by sudden snatching;
- carjacking; and
- home-invasion robbery

A student may also be referred for mental health services if deemed necessary by the threat assessment team.

The State of Florida Juvenile Justice Reform Act of 1965 requires the School District to link juvenile violent incidents to the action taken by the student’s school and the District. The District is required to collect data about violent incidents involving students during each school year and transmit a report to the state. Certain infractions in the *Code of Student Conduct* may result in criminal penalties as well as administrative corrective strategies.
FORMAL CORRECTIVE STRATEGIES RECOGNIZED IN THE CODE OF STUDENT CONDUCT

<table>
<thead>
<tr>
<th>FORMAL CORRECTIVE STRATEGIES:</th>
<th>Assignment to an Alternative Educational Setting in Lieu of Suspension</th>
</tr>
</thead>
</table>

A student may be assigned to the following Alternative Educational Settings (AESs) suitable to the Level of Behavior. When the principal utilizes an AES, the student shall be afforded the same due process procedures that are applicable to suspension, including written notice within 24 hours by U.S. mail. Schools must take into account the student’s capacity to understand his or her behavior and the inappropriateness of his or her actions.

TEMPORARY REMOVAL FROM CLASS

If a student is disruptive in class, the teacher may request assistance from a school administrator to have the student temporarily assigned elsewhere within the student’s regularly assigned school. The principal should consider the teacher’s recommendations and ensure that the student is provided with assignments that are relevant to the material being taught in the class from which the student was removed.

OTHER ALTERNATIVES

Other alternatives, including after-school detention, Saturday School, or other programs available at the school, may be utilized.

In the case of a student with a disability, assignment must be appropriate in light of the student’s Individual Educational Plan (IEP) or Section 504 Plan. Removal from a particular class should not effectuate a denial of IEP or Limited English Proficient (LEP) services.

RESTORATIVE JUSTICE PRACTICES (at District Approved Schools)

Restorative Justice is a theory of justice that emphasizes repairing the harm caused by crime and conflict. It places decisions in the hands of those who have been most affected by a wrongdoing, and gives equal concern to the victim, the offender, and the surrounding community. Restorative justice practices focus on the infraction and conflict, and utilize various techniques such as peace-making circles, which are designed to repair the harm, heal broken relationships, and address the underlying reasons for the offense.

STUDENT COURT (at District Approved Schools)

Student Court is a tribunal for students who have been trained to hear actual cases of school level offenses committed by their peers. Student Court School-Based Program model is for students who violate Level I, Level II and select Level III behaviors of the Code of Student Conduct. It provides participating schools with an alternative resource for decreasing the number of in-school and out-of-school suspensions. Student Court is a tribunal for students who have been trained to hear actual cases of school level offenses committed by their peers.
ASSIGNMENT TO SCHOOL CENTER FOR SPECIAL INSTRUCTION (SCSI)

The principal may assign the student to the School Center for Special Instruction (SCSI), an alternative setting within the student’s regularly assigned school. The SCSI should be designed to provide tutorial and guidance services.

When misconduct in a specific class results in an assignment to SCSI, the student may only be removed from the class where the misconduct occurred. Continued or general misconduct can result in removal from all classes if deemed appropriate by the principal.

PERMANENT REMOVAL FROM CLASS

A teacher may remove a student whose behavior the teacher determines interferes with the teacher’s ability to communicate effectively with the students in the class or with the ability of the student’s classmates to learn. This includes disobedient, violent, abusive, uncontrollable, or disruptive students. The principal shall be notified immediately and the teacher shall be entitled to receive, prior to or upon return of the student to class, a copy of the Student Case Management Form (SCM) describing corrective strategies taken.

Each school must establish a Placement Review Committee to determine appropriate placement of the student when the teacher has withheld consent for return to the teacher’s class. The committee consists of at least two teachers, one selected by the faculty, one selected by the teacher who has removed the student, and one member selected by the principal from the school’s staff. The teacher who requested the removal may not serve on the committee. The parent/guardian of the student must be informed of the Placement Review Committee and be provided the opportunity to communicate with the committee on behalf of the student. The committee must render a decision within 5 days after the removal of the student from the classroom and may either: (1) place the student in another class within the student’s regularly assigned school, or (2) return the student to the teacher’s class. The teacher may appeal the committee’s decision to the Superintendent.

SHORT-TERM AES (1-10 DAYS)

A principal may remove a student from the student’s regular school program and assign the student to an AES for one (1) to ten (10) days for persistent disobedience and/or serious misconduct. Principals take this action when they have exhausted informal corrective strategies, or when they have at least considered those alternatives and rejected them as inappropriate in a given situation.

Reassignment from the student’s regular school program is appropriate under certain conditions, included but not limited to the following:

The student’s presence in school presents a physical danger to the student or others; and/or
A “cooling off” period is needed to relieve tensions and relieve pressure;

A student removed from his or her regular school program has the right to request and obtain make-up assignments for the time he or she was reassigned. It is the responsibility of the student to request make-up work for assignments missed due to a reassignment from the student’s regular school program. In the case of a student with a disability, assignment must be appropriate in light of the student’s Individual Educational Plan (IEP) or Section 504 Plan. Removal from a particular class should not effectuate a denial of IEP or Limited English Proficient (LEP) services.
**Formal Corrective Strategies:** Assignment to an Alternative Educational Setting in Lieu of Suspension

A student removed from his or her regular school program is entitled to be notified of the reason for the reassignment and an opportunity to be heard by the principal/designee. Parents/Guardians must be provided written notice within 24 hours by U.S. mail.

**Student Success Center**

The Student Success Centers are one type of Alternative Educational Setting that provide a safe-haven in a structured learning environment for referred students (ages 11 and older) exhibiting Level III-IV behavior and (with Region notification) habitual Level II infractions of the Code of Student Conduct.

**Long-Term AES (More Than 10 Days)**

A principal may request a District-approved administrative assignment to an AES for more than ten (10) days. This action is taken only when less severe strategies are deemed inappropriate. If the nature of the student’s behavior warrants, the Superintendent’s designee will approve the request and assign the student to one of the alternative educational settings.

In the case of a student with a disability, assignment must be appropriate in light of the student’s Individual Educational Plan (IEP) or Section 504 Plan. Removal from a particular class should not effectuate a denial of IEP or Limited English Proficient (LEP) services.

A student removed from his or her regular school program is entitled to be notified of the reason for the reassignment and an opportunity to be heard by the principal/designee and the parents/guardians must be sent written notice within 24 hours by U.S. mail. Furthermore, the student assigned to an AES for more than 10 days is entitled to a hearing.

**Pathways**

Pathways is one type of Alternative Educational Setting for students in grades 6 – 12 that commit the most serious infractions of the Code of Student Conduct (Levels IV and V) may be recommended for expulsion. Students will be assigned to the Pathways Program during the period of time which would have traditionally resulted in a ten (10) day outdoor suspension preceding expulsion. Students will receive academic support, in-house counseling services and receive wrap-around services from community agencies.

**Formal Corrective Strategies:** Denial of Bus Privileges

Student misconduct while riding a school bus and/or bus stop is a serious threat to the safety of everyone on the bus as well as other motorists, pedestrians and members of the community. All rules that apply to school grounds and activities also apply when riding the school bus. Parents are responsible for their child’s behavior on the school bus to and from school as well as their behavior at the bus stop.

Unacceptable behaviors on a school bus leading to the need for corrective action, that include but are not limited to the following:

Possible corrective action may include the following depending on the severity of the offense:

- Verbal or written reprimand from the school principal/designee
- Parent Conference
- Up to ten (10) days suspension from being transported to and from school
- Up to ten (10) days loss of bus privileges for extracurricular activities
- Assignment to AES
- Recommendation for expulsion if the behavior on the bus constitutes a level III – V

Corrective actions will be determined by the school principal/designee with input from the Department of Transportation based on the offense and after all necessary documentation has been submitted by the bus driver or transportation center.

In the case of a student with a disability, suspension of bus privileges must be appropriate in light of the student’s Individual Educational Plan (IEP) or Section 504 Plan. A manifestation determination must be conducted for more than ten (10) days of bus suspension for any student who receives transportation as a related service on his or her IEP or Section 504 Plan.
There are certain Federal regulations, Florida Statutes, and Rules of the State Board of Education that pertain to disciplinary measures for SPED students. The transportation privileges for SPED students may be suspended for violations of the Code of Student Conduct; however, there are limits to the length of time SPED students may be suspended from riding the bus.

A. Consistent with the school district’s Code of Student Conduct and to the extent that suspension of transportation privileges would be applied to regular education students, school principals may suspend a SPED student’s transportation privileges for not more than ten (10) consecutive school days.

B. School principals may further suspend the transportation privileges of a SPED student for not more than ten (10) consecutive school days in the same school year for separate incidents of misconduct, as long as those suspensions do not constitute a “change of placement” as defined in Rule 6A-6.03312 of the State Board of Education.

C. Pursuant to Rule 6A-6.03312 of the State Board of Education, a “change in placement” occurs when:

- The suspension is for more than ten (10) consecutive school days, or

- The student has been subjected to a series of suspensions of transportation privileges that constitutes a pattern because the suspensions cumulate to more than ten (10) schools days in a school year, because the student’s behavior in previous incidents is substantially similar to the student’s behavior that resulted in the series of suspensions, and because of additional factors, such as the length of each suspension, the total amount of time the student has been suspended, and the proximity of the suspensions to one another. The school district determines on a case-by-case basis whether a pattern of suspensions constitutes a “change of placement,” and this determination is subject to review through due process and judicial proceedings.

D. Requirements for Manifestation Determination (MD) meetings for transportation related violations:

- All SPED students who have their transportation privileges suspended are required to have a Manifestation Determination (MD) meeting after the sixth (6th) day of suspension – if the student is unable to attend school as a result – and for every suspension thereafter in order to determine whether the pattern of removals constitutes a “change of placement,” as defined in paragraph (C), above.

- When reviewing the student’s conduct, the IEP Team will review all relevant information in the student’s file, including any information supplied by the parents of the student, any observations of the student from teachers and Transportation staff, and the student’s current IEP.

- The IEP Team shall determine if the misconduct of the student was caused by, or had a substantial relationship to, the student’s disability, or whether the conduct was a direct failure of the school district’s failure to implement the IEP.
FORMAL CORRECTIVE STRATEGIES:

<table>
<thead>
<tr>
<th>Denial of Bus Privileges for Students with Disabilities</th>
</tr>
</thead>
</table>

- If the IEP Team determines that the misconduct of the student was caused by, or had a direct and substantial relationship to the student’s disability – or that the conduct in question was a direct result of the school district’s failure to implement the IEP – the conduct will be determined to be a manifestation of the student’s disability and the school district will take immediate steps to remedy those deficiencies.

- If the IEP Team determines that the conduct in question of the student was a manifestation of the student’s disability, the IEP Team will either:
  
  o Conduct a functional behavioral assessment (FBA) and implement a behavioral implementation plan (BIP) for the student, or
  
  o If a BIP has already been developed, review and modify it as necessary to address the behavior

- If the IEP Team determines that the behavior was not a manifestation of the student’s disability, the school district may implement the relevant disciplinary procedures that would otherwise apply to a student without disabilities, in the same manner and for the same duration providing the student continues to receive services so as to enable the student to participate in the general curriculum and to progress toward meeting the student’s IEP goals.

E. Expulsion. Expulsion of a student from riding a school bus is the measure of last resort. It may be taken only after repeated suspensions of student’s bus riding privileges have failed to result in an improvement in the student’s behavior, an/or for the most serious of misconduct offenses. Expulsion of a student from riding a school bus must be approved by the M-DCPS School Board in accordance with Policy 2460-Exceptional Student Education.

FORMAL CORRECTIVE STRATEGIES:

<table>
<thead>
<tr>
<th>Denial of Participating in Social and/or Extracurricular Activities</th>
</tr>
</thead>
</table>

Students may be denied the privilege of participating in social and/or extracurricular activities if they have been disruptive in school or at social and/or extracurricular activities. They may also be denied this privilege if they have been convicted or found to have committed a felony or a delinquent act that would have been a felony if committed by an adult, and a determination has been made that the incident has an adverse impact on the educational program, discipline or welfare in the school. In addition, for senior high school students, any arrest will result in an immediate minimum 10 day prohibition from participation in interscholastic competitions or performance, including practices.

All senior high school students, in order to participate in interscholastic athletics and/or extracurricular activities, commencing with the successful completion of the eighth grade as defined by Board Policy 5410 - Student Progression Plan, must meet all academic and conduct eligibility requirements contained in Board Policy 5845 - Student Activities, Board Policy 5500 - Student Conduct and Discipline, and those of the Florida High School Athletic Association (FHSAA) and the Greater Miami Athletic Conference (GMAC) Bylaws.
**FORMAL CORRECTIVE STRATEGIES:**

**Denial of Participating in Social and/or Extracurricular Activities**

A student’s eligibility to participate in any interscholastic athletics and/or extracurricular activity may not be affected by any alleged recruiting violation until final disposition of the allegation pursuant to Section 1006.20 F.S.

---

**FORMAL CORRECTIVE STRATEGIES:**

**Expulsion**

A principal may request that the Superintendent recommend to the School Board that a student be expelled in accordance with Board Policy 5610 - Suspension and Expulsion of Students. Principals may take this action when they have exhausted less severe administrative corrective strategies, or when they have considered those alternatives and rejected them as inappropriate in the given situation.

Only the School Board can approve an expulsion. The maximum period of time for an expulsion may not exceed the remainder of the term or school year, the summer session, plus one additional school year of attendance. An expelled student is entitled to due process, including a formal hearing.

---

**FORMAL CORRECTIVE STRATEGIES:**

**Manifestation Determination Procedures**

A Manifestation Determination meeting is held any time a change of placement is being considered for a student with a disability, such as, when the student has been referred to an Alternative Educational Setting (AES), School Center for Special Instruction (SCSI), and/or the Student Success Center or Pathways. A Manifestation Determination is a process by which the relationship between the student’s disability and the specific behavior that may result in disciplinary action is examined. Schools must take into account the student’s capacity to understand his or her behavior and the inappropriateness of his or her actions.

A. A Manifestation Determination will be made within (10) school days of any decision to change the placement of a student with disability due to a violation of the Code of Student Conduct.

- The IEP Team will meet to review all relevant information in the student’s file, including any information supplied by the parents of the student, any observations of the student from teachers, and the student’s current IEP. The team will determine whether the conduct in question was the direct result of the student’s disability or was the direct result of the school district’s failure to implement the IEP.

B. If the IEP Team determines that the misconduct of the student was caused by, or had a direct and substantial relationship to the student’s disability – or that the conduct in question was a direct result of the school district’s failure to implement the IEP – the conduct will be determined to be a manifestation of the student’s disability and the school district will take immediate steps to remedy those deficiencies in one or more of the following ways:

- Conduct a functional behavioral assessment (FBA) and implement a behavioral implementation plan (BIP) for the student; or
FORMAL CORRECTIVE STRATEGIES: Manifestation Determination Procedures

- If a BIP has already been developed, review and modify it as necessary to address the behavior; and

- Return the student to the placement from which the student was removed, unless the parents/guardians and school district agree to a change in placement as part of the modification for the BIP.

**This option does not apply to students with disabilities that violate the Code of Student Conduct with infractions listed in the 45 School Day Alternative Placement Rule.

C. If the IEP Team determines that the behavior was not a manifestation of the student’s disability, the relevant disciplinary procedures applicable to non-disabled students may be applied to the student in the same manner and for the same duration in which they would be applied to non-disabled students, except that services necessary for a Free Appropriate Public Education (FAPE) will be made available to the student with disability.

D. If the parent(s)/guardian(s) disagrees with the manifestation determination decision made by the IEP Team, the parent(s)/guardian(s) may appeal the decision by requesting a due process hearing.

FORMAL CORRECTIVE STRATEGIES: Mental Health Services

If a school’s Threat Assessment Team determines that a student poses a threat of violence or physical harm to himself or herself or others or significantly disruptive behaviors, a referral may be made to counseling or behavioral health programs.

If an immediate mental health or substance abuse crisis is suspected, school personnel will engage behavioral health crisis resources to provide emergency intervention and assessment, make recommendations, and refer the student for appropriate services.

A good faith attempt will be made to notify the student’s parent or legal guardian; however, nothing will preclude school district personnel from acting immediately to address imminent threat and/or danger.
**Formal Corrective Strategies:**

**Peer Mediation**

The principal may establish a peer mediation program designed to resolve problems addressed in the *Code of Student Conduct*. The establishment and use of this program is solely within the principal’s discretion.

**Work Back Program in Lieu of Expulsion**

In lieu of expulsion, a Work Back Program consistent with existing guidelines, may be available for students who are presently being recommended to the Board for expulsion, except in certain cases for which a Work Back Program is not allowed.
BEHAVIORS THAT MAY RESULT IN CRIMINAL PENALTIES

The following behaviors are grounds for corrective strategies by the school and may also result in criminal penalties:

- Illegal use, possession, or sale of controlled substances while on school grounds or attending a school function;
- Use of a wireless communication device in the commission of a crime;
- Possession of a firearm or weapon while on school grounds, school bus or at a school function, shall also result in a referral for expulsion and mental health services pursuant to F.S. 1006.13;
- Violence against any district School Board personnel;
- Disruptive behavior on a school bus, or at a bus stop, or other violation of the School Board’s transportation policy;
- Violation of the School Board’s sexual harassment policy;
- Making a threat or false report involving destructive devices or explosives directed against a school, school personnel property, school transportation, or school-sponsored activity, shall also result in a referral for expulsion and mental health services pursuant to F.S. 1006.13; and
- Sexting
- Hazing

Notice of the potential for criminal charges for these offenses is required by Section 1006.07 F.S.; however, students and parents/guardians should be aware that any criminal offense could result in criminal prosecution and penalties.
CHAPTER V - MULTI-TIERED SYSTEM OF SUPPORTS (MTSS) BEHAVIOR INTERVENTION GUIDE
Multi-Tiered System of Supports (MTSS) behavior intervention guide is intended as a resource for all educators to assist in integrating academic and behavior supports and services into a fluid and seamless system of multi-tiered service delivery for all students. The MTSS model for instruction and intervention is based on the principle that academic and behavioral supports are first provided at a core or universal level to effectively address the needs of all students in a school (referred to as Tier I). However, not all students respond to the same curricula and teaching strategies. As a result, some students with identified needs will receive supplemental or targeted instruction and intervention at Tier II. Finally, at Tier III, a few students with the most severe needs will receive the most intensive and individualized behavioral and/or academic support.

**TIER I**

**Teach Rules/Expectations:** Establish a structured system for teaching a student rules and expectations prior to a task/request. Such a system may be verbal, written or pictorial.
- **Verbal:** scheduling five minutes prior to an assignment to review rules and expectations
- **Written:** provide the student with written rules and expectations for a given task
- **Pictorial:** teacher can use picture cards to nonverbally teach/remind students of various rules/expectations

**Student Repeats Rules/Expectations Prior to Transition:** Establish a system in which a student verbally, or in written form, repeats rules/expectations prior to transition.
- Teachers and student have an agreement specifying that before each class change the student verbally reviews the rules and expectations

**Preferential Seating:** Change the seating arrangement for a student in order to address his/her specific needs. Possible examples may include:
- The student sits in close proximity to the teacher for hearing, vision, and or attention concerns.
- The student is moved away from negative peer influences and near more positive peer influences.

**Parent-Teacher Communication System:** Establish a set time and method for communication between parent and teacher regarding the student’s behavior and progress.
- Methods for communication might include phone contact, face to face meeting, e-mail or note/letter correspondence.

**Personal Connection with Student:** Establish set times and methods for providing special attention for a student.
A teacher makes it a point to check in with a student each morning in order to find out how his/her homework was the evening before.

**Provide Additional Guidance/Extend Instruction:** Provide the student with more specific and or modified instructions, prior to the assignment, in order to assist in general comprehension.

- The teacher may provide additional/individual verbal instructions, written instructions, pictorial instructions, visual guides, completed model of task, etc.

**Increase Frequency of Task Related Recognition:** Provide specific and consistent recognition and reinforcement for a student’s on-task behavior.

- In lieu of simply expecting that a student engage in task related behavior, the teacher will provide reinforcement (verbal, nonverbal, tangible) for a student that is properly engaged in the classroom task.

**Visual Schedule:** Use for students in need of a structured organizational system, either pictorial or written.

- The schedule is designed to assist the student as he/she progresses through the activities and tasks of the day (i.e. morning bell rings- first class, reading-second class, art, etc.).
- It can also be used to break down a specific task (i.e., open notebook – go to math section- put paper on teacher’s desk).

**Environmental changes:** Make various changes in the environment to accommodate the sensory needs of a student.

- Some examples of this are changing the lighting, re-arranging furniture, or adjusting sound sources.

**Use Preferred Activities as Reinforcement:** Provide access to a preferred activity (i.e. computer time, art, listening to music, etc.) when a student engages in appropriate behavior.

- The teacher must clearly identify what the preferred activity is, make sure that the identified activity is truly rewarding for the student, establish the circumstances under which the preferred activity will be awarded (i.e. after appropriate behavior has been demonstrated three times), and for how long student will be allowed to engage in the preferred activity.

**Personally Greet the Student upon Arrival to Class:** Establish a system for spending a personal moment with the student before class, especially with students who may thrive on attention.

- The teacher may want to ask: “How are you today?”, “What did you do yesterday after school?”, and “How is your family?,” etc.

**Increase Frequency of Positive Reinforcement:** If reinforcement does not occur on a frequent basis, negative/problem behaviors may start to reoccur or increase as a result. When this happens simply increase the frequency of when incentives are delivered.

- A student, who is receiving access to the computer lab for the last half hour of the school day in exchange for demonstrating use of problem solving skills, continues to display episodes of inappropriate behavior. The teacher can increase the frequency of positive reinforcement by allowing two or three opportunities scattered throughout the day to access the computer.

**Use of Tangible/Non-tangible Rewards:** Use tangible and/or non-tangible reinforcers immediately to reward a student for engaging in positive behavior or good performance. The selected tangible/non-tangible reward must be effective for the student in question and delivered on a consistent basis.

- Tangible: food, stickers, toys, etc.
- Non-tangible: verbal praise, public posting of class work, etc.
Code of Student Conduct – Secondary

**Ignore Undesirable Behavior(s):** Instead of, or in addition to, reinforcing positive behavior(s), the teacher can ignore undesirable behavior(s). Any time the student engages in an undesirable behavior, the teacher systematically and consistently ignores the student until the behavior ceases.

**Establish Logical Consequences for Students:** Inform students that engaging in certain problem behaviors will result in specific consequences.
- Out of seat behavior will result in student not earning points on behavior contract. Consequences must be specifically identified to the student and they must be consistently implemented.

**Encourage Effort to Display Appropriate Behavior:** Provide reinforcement for a student who is trying to display the appropriate replacement behavior, even if he/she is not quite there yet. This practice will encourage the student to “keep up the good work” and eventually demonstrate the replacement behavior.

**Use of Positive Referrals:** Make positive references to the student for engaging in appropriate behavior.

**Use Classroom Incentives for Individual Student Accomplishments:** Reward an individual student’s success by allowing the entire class to benefit.
- Throw a pizza party for the class if the individual student has a good week on his/her behavior contract.

**Call Home to Share News of Student Effort/Success:** Establish a system for calling the student’s parents daily/weekly in order to update them on their child’s success and progress.

**Use School-Wide Vehicles for Recognition:** Recognize student success and/or progress during school announcements, award programs, lunch, assemblies, etc.

**Assign Classroom Responsibilities for Student Recognition:** Allow student to participate in classroom related responsibilities (i.e. line leader, clean-up after projects, message delivery person, teacher helper, etc.) in exchange for positive behavior.

**TIER II**

**Teach/Model Communication/Social Skills:** Teach a student appropriate methods of communication. Students who do not possess effective communication/social skills will often vent their school related frustrations in disruptive and inappropriate ways.

- A student experiencing difficulty in mathematics may attempt to avoid such work by acting out in the classroom. The concept is to teach the student appropriate ways of expressing their frustrations. The teacher develops a script with the student that addresses his/her specific needs.
- The following is an example of such a script: when the student is having academic difficulty and feeling frustrated, he/she will signal the teacher either verbally or with a predetermined nonverbal sign (i.e., hand raise). The teacher will subsequently respond to the student in order to find out if he/she needs extra instruction, assistance with assignment or a break from work. Extra instruction and assignment assistance can be delivered by the teacher or by an appointed peer tutor. The break may be as simple as a five minute water or bathroom break. As part of the script, the student agrees to resume appropriate work after his/her needs have been met.
Code of Student Conduct – Secondary

• In order to ensure optimal effectiveness, the teacher should provide the script in written form to the student and possibly attach it to his/her desk.

Task Analysis: Break down and make concrete the difficult tasks to ensure more success. The teacher can teach a student how to break down a task into more simplistic parts.

• A student who has difficulty compiling a three sentence paragraph may perform better when the task is broken down into small steps. First, teach him/her to identify and write down the theme of the paragraph, then create three categories (introduction, main idea, and conclusion), next brainstorm what ideas should go under each category, and finally the student can compile the paragraph based on the information gathered during previous steps.

Practice Communication and Social Skills: After teaching appropriate communication and/or social skills techniques, the teacher may provide specific opportunities for the student to demonstrate such skills in the classroom.

• The teacher may need to establish a verbal or nonverbal prompt with the student (i.e., “now is a good time to use your skills” or tap the student on the shoulder).

Teach Coping Skills: Teach appropriate ways to cope/deal with frustration, anger, embarrassment, etc., when students do not have a repertoire of appropriate strategies to deal with adverse situations.

• The teacher can teach the student methods such as asking for a time out or break, relaxation/breathing exercises, taking five minutes to vent feelings privately with teacher/peer, or engaging in an enjoyable activity (i.e. computer, art, etc.). Suggestions for appropriate coping skills can be written and attached to the student’s desk as a reminder.

Teach Positive Self Talk: Students who do not believe they are capable in various academic and/or social situations may become increasingly unmotivated to work, withdrawn, or even disruptive in order to avoid uncomfortable scenarios.

• The teacher and/or school counselor can teach the student a repertoire of positive statements such as “I am capable of doing my work”, I can make friends in my class”, or “If I study my spelling words every day, I will get a good grade on my spelling test”.
• The student is taught to repeat such statements as frustrations increase in adverse situations.
• The teacher/counselor may need to provide verbal/nonverbal prompts in order for the student to initiate in the self talk procedures (i.e. “what do you need to tell yourself?” or hand signal).

Remediation in Specific Academic Areas: Students with academic deficits may engage in problem behavior as a way to avoid difficult tasks. Implementing classroom academic interventions for remediation should reduce the need to avoid such tasks. In order to select appropriate academic interventions, refer to the School Support Team (if applicable)

Use of Personal Interests for Motivation: Incorporate student interests into a given task or activity. The concept is that if a student finds a task/activity enjoyable or interesting, he/she is more likely to stay engaged for a longer period of time.

• A student who has difficulty staying on task during independent reading assignments will likely become more motivated to complete the assignment if the topic is of his/her choosing. (i.e., if the student likes fishing, the reading assignment can be related).

Teach Alternative Behavior for Sensory Feedback: A student who engages in a certain behavior for the sole purpose of sensory feedback may be able to learn an alternate (less distracting) behavior to serve the same purpose

• A student that taps his/her pencil on the desk repetitively can squeeze a stress ball instead.
Teach Anger Management/Problem Solving Skills: Students who experience difficulty controlling emotions and/or lack sufficient problem solving skills are likely to engage in inappropriate/disruptive behavior when “pushed to the emotional limit” and/or frustrated. There are several existing methods to teach anger management and problem solving skills, and the school counselor and/or school psychologist are excellent resources for such methods.

Teach Behavioral Self-Control (BSC): Students who are impulsive and/or lack self-control on a consistent basis will likely benefit from a highly structured plan that addresses self-evaluation, self-management, self-instruction, and self-reinforcement.

- When a student is engaged in inappropriate/problem behavior, the following teacher prompts and student responses should take place:

  **Teacher asks:**
  “What are you doing?”
  “What do you need to be doing?”
  “What are you going to do now?”
  “Let me know when you finish.”

  **Student responds:**
  “I am…”
  “I need to…”
  “I have to…”
  “I did…”

Social Stories/Comic Book Conversations: This intervention is appropriate for students in need of understanding the social context of various social situations (i.e. standing in line or taking turns)

- A social story or comic book conversation is written specifically for the student and the situation (i.e. Johnny waits for his turn) and must be visually provided for the student.
- The purpose is to lessen the stress of certain social situations for students who may be lacking in social skills and awareness.
- School counselors, school psychologist and autism support teachers are excellent resources for creating social stories.

Encourage Positive Peer Connections: Provide opportunities for student to be in contact with positive peer role models.

- The student can be seated in close proximity and or placed in work groups with peer role models. Such positive peer connections should be reinforced by the teacher and or any other adult involved with the student.

Contract for Grades: Establish a written contract for grades with a student.

- The teacher and student formerly agree that for each reading test grade above a “C,” the student will receive 10 additional minutes of computer lab time. The agreement is written in contract form and signed by both teacher and student.

Daily/Weekly Progress Reports: Arrange a system for documenting the student’s behavioral progress on a daily/weekly basis.

- The teacher may write a brief note at the end of the day/week to describe the student’s overall behavior.
- The teacher develops specific behavior objectives and a form that can be checked-off daily/weekly to show that behavior objectives are met.

Monitoring/Redirection: Establish a system for monitoring a student during tasks.

- Checking a student at 10 minute intervals and or providing redirection when needed i.e., eye contact, proximity, tangible incentives, etc.
**Spend Individual Time with Student:** When a student engages in appropriate behavior, he/she can be rewarded by arranging a specific time for teacher and student to spend time together. It is necessary to be specific when designing this intervention.
- When the student demonstrates appropriate behavior during morning classroom activities, he/she will be allowed to eat lunch with the teacher.

**Reward Competing Behaviors:** The concept behind competing behaviors is that a student cannot engage in two “competing” behaviors at the same time. Identify a competing behavior for the problem behavior (i.e. reading aloud and making inappropriate noises) and reward the student each time he/she engages in the competing behavior.

**Student Self-Monitoring of Progress:** Allow the student to monitor his/her own progress.
- The student can have possession of a progress report and/or behavior contract so that he/she can track their own improvement.

**Acknowledge Use of Replacement Behaviors:** Reward students for engaging in established replacement behaviors.
- Provide the student with verbal praise each time he/she raises his/her hand to get teacher attention instead of calling out loud for teacher attention.

**Develop a Written Behavior Contract:** Use of a behavior contract with points, check offs, signatures, or some other indication for positive behavior can be a powerful self-reinforcement tool. Allow the student to take possession of the contracts and track his/her own progress.

**TIER III**

**Choice Making:** Allow student to have some degree of control over their school activities.
- The teacher allows the student to choose the sequence of activities (e.g., reading activity first and writing activity second), mode of presentation (i.e. oral, written, demonstration, etc.) learning materials (e.g., pencil/paper, manipulative, computer use, etc.), and or incentives (e.g., tangibles, public attention, access to activity, etc.).

**Participation in Extra Curricular Activities:** Identify and encourage student to become involved in extra-curricular activities such as sports, art club, music club, etc. The activity should match the individual student’s interests and skills.

**Student Follow-Up:** This involves establishing a system for a “check-in” time during an assignment to ensure that the student fully understands a specific task or request.
- The teacher and student may have an agreement specifying that 10 minutes after the start of a given assignment/test or request the teacher will verbally confirm the student understands. If the student is in need of further instruction, the teacher will provide it.
Schedule Adjustment: Adjust the daily schedule and/or change the teacher.
• It is possible that a student tends to focus best in the early morning yet all academic classes are scheduled after lunch. In such a case, it would be advantageous for the student’s schedule to be adjusted so that academic classes would take place during the morning hours.
• There may be a personality/work style “mismatch” between teacher and student. Changing a student’s teacher can make a significant difference.

Peer Mentor/Tutor Opportunity: Allow student to serve as a peer mentor/tutor. This can be effective even when the student him/herself is experiencing difficulties in a given skill area.
• The student can mentor/tutor someone in a lower grade or work group. This can be excellent for improving self-concept, and reinforcing skills in area of difficulty for the student.

Provide Quiet Time Space: Provide a specific time and/or space for quiet or “cool down” purposes.
• If a student becomes easily frustrated during certain academic task, then a quiet area of the classroom can be established as a personal space for that student to go if necessary.

Identify Appropriate Settings for Behavior(s): Suggests that inappropriate behaviors can be appropriate if demonstrated in a suitable setting.
• If a student is constantly singing out loud during class time and causing a disruption, identify or create more appropriate settings for such behavior (i.e., music class, join the chorus, or provide a specific time during class for the student’s to show off their “talent”).

Chart and Review Daily Student Successes: Create a simple chart listing the replacement behavior(s) and spaces for check-offs of compliance. The chart can be posted on the student’s desk and the teacher will check-off every time the behavior(s) are demonstrated at the end of each day, teacher and student can review the chart.

Recognize Small Steps Approximating the Desired Behavior: When a replacement behavior is complex or involves several steps, it may be necessary to reinforce the student for demonstrating smaller approximations or steps of the replacement behavior. Once behaviors have been broken down into steps and taught to the student, reinforce the student for each approximation of the behavior.
GLOSSARY
All students and parents/guardians must understand that, in addition to taking corrective strategies at the school level, certain criminal and/or disruptive behavior must, by Board Rule, be reported to appropriate police authorities and to the Miami-Dade Schools Police (Board Policy 3210- Standards of Ethical Conduct).

11. Bullying: Level III - Behavior

Repeatedly using hostile, intimidating, domineering, or threatening behavior with the intent or purpose of physically or mentally hurting another individual. Bullying occurs within an interpersonal relationship characterized by an imbalance of power (physical or psychological). Unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting, or dehumanizing acts, by an adult or student that are severe or pervasive enough to create an intimidating, hostile or offensive educational environment.

Systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees that is severe or pervasive enough to create an intimidating, hostile, or offensive environment; or unreasonably interferes with the individual’s school performance or participation. Bullying includes instances of cyberbullying. See also Board Policy 5517.01 – Bullying and Harassment and pages 37-39.

Example: When the girl repeatedly made fun of another student for being poor, the girl was guilty of bullying.

12. Bullying-related Incident

An incident is bullying related if the incident includes systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees that is severe or pervasive enough to create an intimidating, hostile, or offensive environment; or unreasonably interferes with the individual’s school performance or participation.

13. Burglary/Breaking and Entering: Level III-Behavior

Unlawful entry into or remaining in a dwelling, structure, or conveyance with the intent to commit a crime therein.

Example: The students committed burglary when they crawled through the window to steal a camera.

14. Cheating: Level II-Behavior

Using unauthorized answers or sources to receive credit for schoolwork. Some examples are looking at someone else’s paper, copying from your notebook when you are supposed to use only your memory, or copying someone else’s homework because you did not complete yours.

Example: The teacher accused him of cheating when she found answers to the test written on his desk.

Plagiarism is a form of cheating when you present another person’s words or ideas as your own without giving the originator credit for the information. Some common examples of plagiarism are copying information from a book without using quotation marks and without including a bibliography at the end of the assignment listing the sources used. All information in academic assignments that is not common knowledge must be cited and documented. An example of common knowledge is: Miami is a city in Florida.

Example: She plagiarized the information in her report by not giving credit to the author for his ideas.

For purposes of Title IX, the United States Department of Education defines sexual harassment as unwelcome sexual conduct, including conditioning any aid, benefit or service of the school on an individual’s participation in unwelcome sexual conduct, sexual assault, dating or domestic violence, stalking, and all forms of sexual harassment that a reasonable person would determine so severe, pervasive, and objectively offensive that it denies a student access to an education program or activity.

shall include any firearm or weapon securely encased in a vehicle or other private conveyance on a campus. Possession, use, sale, or distribution of firearms that results in disciplinary action at school may lead to arrest and criminal penalties.

Possession, use, sale, and/or distribution of weapons that results in disciplinary action at school may lead to arrest and criminal penalties.

APPENDIX
The District believes in the dignity, worth, and potential of each and every student, and provides opportunities to enable all students to make the dream of education a reality. To encourage and recognize positive model student behavior, students will be rewarded and recognized for striving to do their best, and for respecting other students and teachers.

Studies have revealed that model student behavior improves when students

- know what is expected of them at school;
- believe they have the academic and social skills to achieve;
- are recognized and given praised for doing good work or behaving appropriately;
- feel that there is someone at school who seems to care about them as people; and
- believe there is someone at school who encourages their development.

Studies also indicate the importance of parental support

- Student achievement related to parent support is not limited to the early years, but is significant at all ages and grade levels.
- Children of involved parents achieve more regardless of socioeconomic status, ethnic/racial background, or the parents’ educational level.
- Children of involved parents exhibit more positive attitudes and behavior.
- Children of involved parents have fewer instances of alcohol use, violence, and antisocial behavior.
- Children of involved parents have higher grades, test scores and better attendance, and are more likely to graduate from high school and have greater enrollment in post-secondary education.

Research offers some suggestions for schools to clearly communicate expectations for model student behavior

- The school must provide a well-written set of model student behavior expectations for the school.
- The set of expectations is short (generally from 5 to 7 items).
- Students should be involved in the development, refinement, and communication of the expectations of model student behavior.
- The model student behavior expectations are statements of how to achieve model behavior, rather than what not to do.
- Model student behavior expectations are posted prominently throughout the school.
- Model student behavior expectations are emphasized in each classroom (e.g. explicitly taught, reminded, and encouraged).
- Students should be encouraged to remember and repeat statements of model student behavior.

The Importance of Developing Time Management Skills

Time management is an important skill for students of all ages. From studying for school to being an adult and working at a job, time management skills are essential to becoming productive. It has been proven that those who manage their time well, whether in school, work, or exercise, develop good study habits and responsible behavior. Effectively prioritizing tasks is the key to achieving goals.

Time management training provides the theory and practice needed to make the best use of time. In order to apply time management principles effectively individuals first have to

- accept time management as a personal responsibility;
- have a strong and motivating vision of what an ideal life would be like if students were in better control of their time;
- have clear and specific goals relating to achievement;
- devise a schedule and follow it in order to make this happen, and stick to the plan; and
- realize that students (and probably other people) will have to change their way of doing things.

When students manage time wisely to achieve their goals, they will feel fulfilled, productive and in control of their lives. Students will be happier, calmer and more effective. If students can achieve this state, they will truly be managing their time to make a difference

"Time is the coin of your life. It is the only coin you have, and only you can determine how it will be spent. Be careful lest you let other people spend it for you."

**Time Management Tips for High School Students**

It's 10 P.M.—Do You Know Where Your Homework Is?

Does it seem like there's never enough time in the day to get everything done? Feel like you're always running late? Here are some tips for taking control of your time and organizing your life.

1. **Make a "To Do" List Every Day.**
   Put things that are most important at the top and do them first. If it's easier, use a planner to track all of your tasks. And don't forget to reward yourself for your accomplishments.

2. **Use Spare Minutes Wisely.**
   Get some reading done on the bus ride home from school, for example, and you'll kill two birds with one stone.

3. **It's Okay to Say "No."**
   If your boss asks you to work on a Thursday night and you have a final exam the next morning, realize that it's okay to say no. Keep your short- and long-term priorities in mind.

4. **Find the Right Time.**
   You'll work more efficiently if you figure out when you do your best work. For example, if your brain handles math better in the afternoon, don't wait to do it until late at night.

5. **Review Your Notes Every Day.**
   You'll reinforce what you've learned, so you need less time to study. You'll also be ready if your teacher calls on you or gives a pop quiz.

6. **Get a Good Night's Sleep.**
   Running on empty makes the day seem longer and your tasks seem more difficult.

7. **Communicate Your Schedule to Others.**
   If phone calls are proving to be a distraction, tell your friends that you take social calls from 7-8 p.m. It may sound silly, but it helps.

8. **Become a Taskmaster.**
   Figure out how much free time you have each week. Give yourself a time budget and plan your activities accordingly.

9. **Don't Waste Time Agonizing.**
   Have you ever wasted an entire evening by worrying about something that you're supposed to be doing? Was it worth it? Instead of agonizing and procrastinating, just do it.

10. **Keep Things in Perspective.**
    Setting goals that are unrealistic sets you up for failure. While it's good to set high goals for yourself, be sure not to overdo it. Set goals that are difficult yet reachable.

Consider these tips, but personalize your habits so that they suit you. If you set priorities that fit your lifestyle, you'll have a better chance of achieving your goals.
